**Zimbabwe Human Rights Bulletin** ,2003 **Restoring the Educational Dream. Rethinking Educational Transformation in Zimbabwe** Shizha, Edward,2013-12-07 The role of education in human well being and social development cannot be overestimated After a number of highly commendable policies on education in the first decade of independence the

education system in Zimbabwe has taken a tumble that needs both examining and rectifying This volume analyses the challenges facing the education system in Zimbabwe and explores and scrutinises theoretical and practical possibilities for restoring the educational dream that was initiated at independence in 1980 The book is targeted at academics scholars college and university students policy makers and other stakeholders and advocates a multi pronged approach that must involve all stakeholders if educational retransformation reconstruction and restoration are to be achieved The authors provide a range of recommendations for a project that would restore the educational dream in Zimbabwe Moto ,2001

**Cyclones in Southern Africa** Godwell Nhamo,David Chikodzi,2021-09-28 Tropical cyclones in Southern Africa also known as hurricanes or typhoons in other regions of the world is a hot subject for academic research This focus has been magnified by the need to consider tropical cyclones in the context of other global development agendas that includes the 2030 Agenda for Sustainable Development and its inseparable 17 Sustainable Development Goals SDGs the Paris Agreement the Sendai Framework for Disaster Risk Reduction and Habitat III s New Urban Agenda The ambitious SDGs challenge global and community leaders to make sure development addresses the nexus among poverty inequality and employment creation as well as care for the earth and its natural resources and biodiversity The SDGs further present an agenda to eradicate hunger bring quality education and sustain water and sanitation The infrastructure development human settlements sustainable consumption and production climate change biodiversity and the ocean blue economy agendas are also pitched Lastly the 2030 Agenda for Sustainable Development encourages partnerships on delivering various programmes and projects at all spatial levels However as tropical cyclones continue to make multiple landfalls and ravage Southern Africa and other parts of the world the achievement of the 2030 Agenda for Sustainable Development is threatened To this end this book addresses this gap by documenting the implications of tropical cyclones drawing examples and case studies from recent tropical cyclones such as cyclone Idai and cyclone Kenneth that resulted in catastrophic impacts in 2019 The book comes as part of a series with three volumes The other volumes include Cyclones in Southern Africa Vol 1 Interfacing the Catastrophic Impact of Cyclone Idai with SDGs in Zimbabwe and Cyclones in Southern Africa Vol 2 Foundational and Fundamental Topics Given the foregoing the book is suitable as a read for several professionals and disciplines such as tourism and hospitality studies economics sustainable development development studies environmental sciences arts geography life sciences politics planning and public health **Beyond the Enclave** Godfrey Kanyenze,2011 Beyond the Enclave sets out to unravel the contradiction of a country Zimbabwe where a rich diverse resource base co exists with endemic poverty One reason lies in the colonial economy which was predicated on an ideology of white supremacy creating an enclave formal economy employing one fifth of the labour force Yet over three decades after independence the non formal segment has become even more entrenched This book assesses Zimbabwe s economy through three main phases 1980 0 when a strong social policy framework proved difficult to sustain due to erratic growth and 1991 6 when structural

adjustment demanded a market driven approach to development The third phase is characterized by crisis management leading to policy inconsistencies and reversals Not surprisingly such incoherence saw the economy descend into hyperinflation and paralysis in 2007 8 leading to the signing of the Global Political Agreement in September 2008 In the absence of formal dollarization economic recovery after the adoption of the multi currency regime has remained fragile leaving an estimated 70 per cent of the population outside the banking system This has further entrenched uneven enclave growth as the economy remains locked in a low income poverty trap There is a need to facilitate transition towards formality to promote decent jobs Furthermore a strategic developmental role for the state in the economy is now widely recognized as vital for development Beyond the Enclave argues for a new approach to development in Zimbabwe based on pro poor and inclusive strategies which will contribute to the well being of all of its citizens and wise stewardship of its resources It offers suggestions on policy formulation implementation monitoring and evaluation in all sectors designed to promote inclusive growth and humane development

**Reconceptualising Multilingualism on African Radio** Limukani Mathe, Gilbert Motsaathebe, 2025-01-31 This book redefines multilingualism via the concept of radio in Africa Africa presents unique challenges of lingual diversity which the media still struggles to accommodate particularly when it comes to indigenous languages Contributors argue that the linguistic realities of African radio reflect ethnic co existence and fluidity of identity in pre colonial colonial and post colonial contexts They argue that communities consist of several majorized and minoritized indigenous languages which if closely analysed reflect a commonality of multilingualism The book also suggests practical measures through which linguistic co existence could be achieved and explores cases that redefine reconceptualize and reframe multilingualism on African radio
