To See Them Run Great Plains Coyote Coursing:

To See Them Run Eric A. Eliason, 2015-10-14 *To See Them Run* explores how and why Great Plains hunters have chased coyotes with greyhounds and other sight hounds since before George Armstrong Custer. Though a well developed long lived widespread and undeniably enthralling tradition the practice remains little known even to those living in Oklahoma Nebraska and South Dakota where the tradition is common. Coyote coursing hunting with greyhounds launched from specially made pickup rigs is a hobby by locals for locals and it has remained a quintessentially vernacular enterprise occupying a rung below the Plains prestige forms of animal training and interaction namely with horses and cattle. The coyote coursing tradition provides an ideal setting for exploring the relationship between animals and the study of folklore. The book examines the artistry thrills values camaraderie economy and controversies of this uncommercialized and never before studied vernacular tradition. Through ethnographic photographs and authentic collected commentary from participants this book uncovers how hunting dogs and coyotes both have shaped and been shaped by human aesthetic sensibilities in ongoing folkloric and biological processes. Author Eric A. Eliason and photographer Scott Squire discover deep and sophisticated local knowledge in a unique interaction with the natural ecologies of the great North American prairie. Gunlore Robert Glenn Howard, Eric A. Eliason, 2024-08-15 *Contributions by Sandra Bartlett Atwood Nathan E Bender London Brickley Eric A Eliason Noah D Eliason Tim Frandy Robert Glenn Howard Jay Mechling Annamarie O'Brien Morel Raymond Summerville Tok Thompson and Megan L Zahay* Guns are a ubiquitous part of life in the United States. Arguably more pervasive than physical guns is gunlore which refers to the many folklore genres related to firearms. *Gunlore: Firearms Folkways and Communities* is the first book to engage with the many narratives rituals folk speech customs art and handicraft encompassed by gunlore. Like most expressive cultures gunlore emerges from specific communities. Groups with a shared interest around firearms may form for many reasons self protection hunting crime work political or social identity signaling the desire to creatively modify guns and even the resolve to oppose gun use and ownership. This collection explores a range of gunlore genres and the gunfolk groups that give rise to them. Contributors examine topics that include the fetishization of firearms Moms Who Carry online discussion boards alternative history cosplay survivalist communities gunsmiths and gun craft and more. Gun owners and gun enthusiasts in all their varieties are one of the largest avocational groups in America. The essays in *Gunlore* seek to expand our understanding of these communities by looking at the various roles firearms play have played and can play in our world. Gunlore for better or worse is a powerful and pervasive method of self expression. In examining the folklore around these controversial and politically charged tools weapons and symbols we can begin to understand aspects of American culture that will remain prominent for the foreseeable future. **Handbook of Gender Studies in the Dutch Caribbean**, 2024-04-30 Edited by Rose Mary Allen and Sruti Bala this comprehensive handbook of gender studies scholarship on the Dutch Caribbean islands thematically covers the history of movements for gender equality the relation of

Reconstruction and Mormon America Clyde A. Milner, Brian Q. Cannon, 2019-10-03 The South has been the standard focus of Reconstruction but reconstruction following the Civil War was not a distinctly Southern experience In the post Civil War West American Indians also experienced reconstruction through removal to reservations and assimilation to Christianity and Latter day Saints Mormons saw government actions to force the end of polygamy under threat of disestablishing the church These efforts to bring nonconformist Mormons into the American mainstream figure in the more familiar scheme of the federal government's reconstruction aimed at rebellious white Southerners and uncontrolled American Indians In this volume more than a dozen contributors look anew at the scope of the reconstruction narrative and offer a unique perspective on the history of the Latter day Saints Marshaled by editors Clyde A Milner II and Brian Q Cannon these writers explore why the federal government wanted to reconstruct Latter day Saints when such efforts began and how the initiatives compare with what happened with white Southerners and American Indians Other contributions examine the effect of the government's policies on Mormon identity and sense of history Why for example do Latter day Saints not have a Lost Cause Do they share a resentment with American Indians over the loss of sovereignty And were nineteenth century Mormons considered to be on the wrong side of a religious line but not a race line The authors consider these and other vital questions and topics here Together and in dialogue with one another their work suggests a new way of understanding the regional racial and religious dynamics of reconstruction and within this framework a new way of thinking about the creation of a Mormon historical identity

Wild Games Dennis Ray Cutchins, Eric Alden Eliason, 2009 Humans understand at least some of what it means to be human both literally

and figuratively in reference to wild animals Our relationships with wildlife have traditionally been expressed in terms of hunting more recently these relationships have also been manifest as efforts to prevent hunting Hunting and fishing traditions are in fact under fire by critics at the same time that they are receding of their own accord perhaps becoming even more endangered than any of the pursued animals These traditions form the major focus of Wild Games a new collection of essays that looks at the folklore and culture of various hunting and fishing practices documenting the central importance of hunting to many rural societies even in modern times Editors Dennis Cutchins and Eric Eliason contend that hunters often don't perceive of themselves as separate from the wild but rather identify strongly with a natural order integrated with rather than standing apart from the fluctuation of ecosystems And they frequently don't see wild animals as set apart but understand them as food sources competitors friendly rivals and even equals Featuring contributions from a variety of distinguished scholars and writers including an essay by the noted folklorist Simon Bronner on the culture of the deer camp a fascinating account of coyote tracking by Eric Eliason and an examination of the role of gender in outdoor life by Diane Humphrey Lueck this book shows how the traditions of hunting and fishing tend to bind hunter and prey into ancient patterns that often defy contemporary culture Book Jacket
