authority locating power in the hands of the citizenry who hold the capacity to create transform and maintain their political institutions Republicanism's conception of freedom rejects social political and economic structures subordinating citizens to any uncontrolled power from capitalism and wage labour to patriarchy and imperialism It views any such domination as inimical to republican freedom Moreover it combines a revolutionary commitment to overturning despotic and tyrannical regimes with the creation of political and economic institutions that realise the sovereignty of all citizens institutions that are resilient to threats of oligarchical control This volume is dedicated to retrieving and developing this radical potential challenging the more conventional moderate conceptions of republicanism It brings together scholars at the forefront of tracing this radical heritage of the republican tradition and developing arguments texts and practices into a critical and emancipatory body of political and social thought The volume spans historical discussions of the English Levellers French and Ottoman revolutionaries and American abolitionists and trade unionists explorations of the radical republican aspects of the thought of Machiavelli Marx and Rousseau and theoretical examinations of social domination and popular constitutionalism It will appeal to political theorists historians of political thought and political activists interested in how republicanism provides a robust and successful radical transformation to existing social and political orders

Mansfield Professor of Government at Harvard Senior Fellow at the Hoover Institution Stanford USA Lucretius as Theorist of Political Life is an interpretation of Lucretius poem On the Nature of Things as a defense of philosophy given the irremediable tension between the competing claims of the philosophic and political life The central issue is the need for and attempt by philosophy to justify and defend its way of life to the political community This work uncovers how Lucretius conception of the philosophic life and the reaction to the human religious and political implications of the discovery of nature distinguish his intention from the anti theological animus that drives the politically and scientifically ambitious project of his modern appropriators Western Europe 2013 Wayne C.
