Tolerance A Sensorial Orientation To Politics:

Tolerance Lars Tonder, 2013 The main task of Tolerance is to reorient discussions in democratic theory so as better to theorize how tolerance can operate as an active force in the context of deep pluralism The objective is to develop a theory of active tolerance attentive to the many different ways in which societies can become tolerant **Tolerance** Lars

Tonder, 2013-10 Tolerance is often considered a practice of restraint motivated by either respect or benevolence But might there be something else to the practice of tolerance that makes it more than a way of constricting the actions of citizens who disagree In this pioneering book Lars Tonder turns the attention to tolerance's sensorial side in order to clarify the circumstances in which tolerance can become a source of empowerment and pluralization that goes beyond the image of citizenship currently on offer in contemporary democratic theory Artmaking in the Age of Global Capitalism Bryant Jan

Bryant, 2019-09-11 Jan Bryant looks at the strategies visual artists and filmmakers are using to criticise the social and economic conditions shaping our historical moment She then assesses how the world is being positively reimagined through their work today Located at the intersection of practice and theory Bryant argues that an effective contemporary political aesthetics encompasses more than just analysis of a work's conceptual or aesthetic reality It should also consider the impact the artwork has at the point of reception the methods adopted by the artists and the relationships they engender with communities **Sacred Engagements** Alison Conway, 2023-02-14 A revelatory reading of the British novel that considers

interfaith marriage religious toleration and the ethics of sociability Bringing together feminist theory novel criticism and religious studies Alison Conway's Sacred Engagements advances a postsecular reading of the novel that links religious tolerance and the eighteenth century marriage plot Conway explores the historical roots of the vexed questions that interfaith marriage continues to raise today She argues that narrative wields the power to imagine conjugal and religious relations that support the embodied politics crucial to a communal rather than state sponsored ethics of toleration Conway studies the communal and gendered aspects of religious experience embedded in Samuel Richardson's account of interfaith marriage and liberalism's understandings of toleration in Sir Charles Grandison In her readings of Frances Brooke Elizabeth Inchbald and Maria Edgeworth Conway considers how women authors reframe the questions posed by Grandison representing intimacy authorship and women's religious subjectivity in ways that challenge the social and political norms of Protestant British culture She concludes with reflections on Jane Austen's Mansfield Park and the costs of a marriage plot that insists on religious conformity By examining the complex epistemologies of the interfaith marriage plot Sacred Engagements counters the secularization thesis that has long dominated eighteenth century novel studies In so doing the book recognizes those subjects otherwise ignored by liberal political theory and extrapolates how a genuinely inclusive tolerance might be imagined in our own deeply divided times Cookbook Politics Kennan Ferguson, 2020-05-01 An original

and eclectic view of cookbooks as political acts Cookbooks are not political in conventional ways They neither proclaim as do

manifestos nor do they forbid as do laws They do not command agreement as do arguments and their stipulations often lack specificity cook until browned Yet as repositories of human taste cookbooks transmit specific blends of flavor texture and nutrition across space and time Cookbooks both form and reflect who we are In Cookbook Politics Kennan Ferguson explores the sensual and political implications of these repositories demonstrating how they create nations establish ideologies shape international relations and structure communities Cookbook Politics argues that cookbooks highlight aspects of our lives we rarely recognize as political taste production domesticity collectivity and imagination and considers the ways in which cookbooks have or do politics from the most overt to the most subtle Cookbooks turn regional diversity into national unity as Pellegrino Artusi's Science in the Kitchen and the Art of Eating Well did for Italy in 1891 Politically affiliated organizations compile and sell cookbooks for example the early United Nations published The World's Favorite Recipes From the First Baptist Church of Midland Tennessee's community cookbook to Julia Child's Mastering the Art of French Cooking to the Italian Futurists proto fascist guide to food preparation Ferguson demonstrates how cookbooks mark desires and reveal social commitments your table becomes a representation of who you are Authoritative yet flexible collective yet individualized cooperative yet personal cookbooks invite participation editing and transformation Created to convey flavor and taste across generations communities and nations they enact the continuities and changes of social lives Their functioning in the name of creativity and preparation with readers happily consuming them in similar ways makes cookbooks an exemplary model for democratic politics

William James on Democratic Individuality Stephen S. Bush, 2018-01-11 William James 1842-1910 argued for a philosophy of democracy and pluralism that advocates individual and collective responsibility for our social arrangements our morality and our religion In James' view democracy resides first and foremost not in governmental institutions or in procedures such as voting but rather in the characteristics of individuals and in qualities of mind and conduct It is a philosophy for social change counselling action and hope despite the manifold challenges facing democratic politics and these issues still resonate strongly today In this book Stephen Bush explores how these themes connect to James' philosophy of religion his moral thought his epistemology his psychology and his metaphysics His fresh and original study highlights the relevance of James' thought to modern debates and will appeal to scholars and students of moral and political philosophy

Imagining Religious Toleration Alison Conway, David Alvarez, 2019-07-15 Formerly a site of study reserved for intellectual historians and political philosophers scholarship on religious toleration from the perspective of literary scholars is fairly limited Largely ignored and understudied techniques employed by writers to influence cultural understandings of tolerance are rich for exploration In investigating texts ranging from early modern to Romantic Alison Conway David Alvarez and their contributors shed light on what literature can say about toleration and how it can produce and manage feelings of tolerance and intolerance Beginning with an overview of the historical debates surrounding the terms toleration and tolerance this book moves on to discuss the specific contributions that literature and literary modes have made

to cultural history studying the literary techniques that philosophers theologians and political theorists used to frame the questions central to the idea and practice of religious toleration Tracing the rhetoric employed by a wide range of authors the contributors delve into topics such as conversion as an instrument of power in Shakespeare the relationship between religious toleration and the rise of Enlightenment satire and the ways in which writing can act as a call for tolerance

British Multiculturalism and the Politics of Representation Lasse Thomassen, 2017-03-08 Uses poststructuralist theory to connect inclusion exclusion and identity using real world case studies from British culture politics and law Lasse Thomassen applies a fresh poststructuralist approach to reconcile the theoretical and practical issues surrounding inclusion exclusion and representation He opens up debates and themes including Britishness race the nature and role of Islam in British society homelessness and social justice Thomassen argues that the politics of inclusion and identity should be viewed as struggles over how these identities are represented He develops this argument through careful analysis of cases from the last four decades of British multiculturalism including public debates about the role of religion in British society Gordon Brown and David Cameron's contrasting versions of Britishness legal cases about religious symbols and clothing in schools and the Nick Hornby novel *How to Be Good*

Coexistence Paul Simpson, 2024-12-17 This book aims to develop an account of living together with difference which recognises the tension that we are inescapably with others both human and non human but at the same time are always differing from and with those with whom we find ourselves A concern for coexistence and questions over how we might live together have been raised and approached from a host of conceptual starting points in recent times including via calls for a rethinking of communism today the articulation of forms of cosmopolitics or pluralism the refiguring of understandings of ecology as dark or feminist amongst others This book responds to such questions of coexistence by developing what it calls a coexistential analytic In doing so this book introduces a range of post phenomenological thought which offers means for thinking about such questions of living together with difference The thought of Emmanuel Levinas on the face of the other Jean Luc Nancy on being as being with Roberto Esposito on the munis and Michel Henry on pathic auto affection are introduced and critically reflected upon in terms of what they offer for thinking about such coexistence Alongside these conceptual starting points a series of encounters with cinema everyday life politics and literature are used to animate and illustrate the discussion Ultimately the book argues for a spacing of subjectivities with that world and those encountered within it This book is intended primarily for researchers and postgraduate students interested in questions of identity difference and subjectivity It will be of interest to those in the fields of social and cultural geography sociology social theory and cultural studies

The Afterlife of al-Andalus Christina Civantos, 2017-11-21 The first study to undertake a wide ranging comparison of invocations of al Andalus across the Arab and Hispanic worlds Around the globe concerns about interfaith relations have led to efforts to find earlier models in Muslim Iberia al Andalus This book examines how Muslim Iberia operates as an icon or symbol of identity in twentieth and twenty

first century narrative drama television and film from the Arab world Spain and Argentina Christina Civantos demonstrates how cultural agents in the present ascribe importance to the past and how dominant accounts of this importance are contested Civantos s analysis reveals that alongside established narratives that use al Andalus to create exclusionary imperial identities there are alternate discourses about the legacy of al Andalus that rewrite the traditional narratives In the process these discourses critique their imperial and gendered dimensions and pursue intercultural translation
