World Civilizations Peter N. Stearns, 2007 The primary goal of World Civilizations is to present a truly global history since the development of agriculture and herding to the present Overview of World History Readers interested in the history and development of civilization worldwide

World Civilizations Peter N. Stearns, Michael Adas, Stuart B. Schwartz, 2001 The primary goal of World Civilizations is to present a TRULY GLOBAL HISTORY one that both discusses the development of the world's leading civilizations and also emphasizes the major stages in the interactions among different peoples and societies World Civilizations examines all the world's civilizations including those in the Western tradition but also those civilizations sometimes neglected in world history texts for example the nomadic societies of Asia Latin America and the nations and states of the Pacific Rim World Civilizations balances this discussion of independent developments in all the world's major civilizations with comparative analysis of the results of international contact World Civilizations organizes its presentation of global history into SIX COHERENT TIME PERIODS with each period defined by the new and parallel patterns that evolved among all or most civilizations during the particular era The six periods correspond to the six parts of the book Within each part the authors identify specific themes that characterize common experiences or common forces in individual societies as well as the new kinds and patterns of global contacts that emerged during the era Thus for example Part I of the book discusses the developmental stage of world history including the rise of agriculture and the development of civilization Part II examines the classical era in global history an era marked by the integration of large regions and diverse groups of people through overarching cultural and political systems Subsequent parts of the book continue the emphasis on geographic shifts and the intensification of contact among civilizations

World Civilizations, 2011 World Civilizations AP Edition encourages students to grasp concepts and patterns across a huge breadth of time and space and helps to facilitate global understandings and connections in the classroom This text captures a truly global approach by discussing and comparing major societies and focusing on their interactions World Civilizations AP Edition presents a clear factual framework while stimulating analysis about global contacts regional patterns and the whole process of change and continuity on a world stage

This text identifies six periods in world history. Each period is determined by three basic criteria: a geographical rebalancing among major civilizational areas, an increase in the intensity and extent of contact across civilizations, or in the case of the earliest period, crossregional contact and the emergence of new and roughly parallel developments in many major civilizations. Based on comparative work and focuses on global processes, this text helps students see the history of the world as one based on multiple disciplines. Vladimir Putin and Russia's Imperial Revival David E. McNabb, 2017-07-05 Discerning the early stages of the rebirth of a new Russian empire from the ashes of the Soviet Union Vladimir Putin and Russia's Imperial Revival argues that Russia's recent overtly aggressive actions and foreign policy doctrines have signaled a renewal of the Cold War At the least Russia's actions represent the potential for renewal This book explains these developments in a historical context The book begins by describing Russia's initial policy of rapprochement after the collapse of the Soviet Union and its development into a foreign policy of threatened or actual armed aggression It identifies today's Russia as a nation determined to re-establish itself as a political and military force As a prominent figure in the development and continuation of its current foreign policy Vladimir Putin plays a central role in the topics covered Previous literature often treats Putin as an individual phenomenon examining his connections to corruption or the secret police but here David E McNabb examines him as the latest in a long history of Russian despots who followed similar expansionist policies He details some of the tactics Putin uses to instill fear and dominate political policies of republics newly independent from Russia These tactics include the use of energy as a weapon cyber terrorism and military support for ethnic Russian separatists in other sovereign nations most recently exemplified by Russia's annexation of Crimea from Ukraine via armed invasion In an attempt to demystify

Russia's re emergence as an international political force Vladimir Putin and Russia's Imperial Revival grounds its analyses in history It explores as far back as the establishment of the first Russian empire and regards Putin as a leader determined to establish a fifth imperial incarnation It provides a nuanced understanding of how Russia arrived at its current position through recent and distant internal and international events **Vladimir Putin and Russia?
