Garcia, 2013-04-15 For centuries international trade has been seen as essential to the wealth and power of nations More recently we have started to understand its problematic role as an engine of distributive justice In this compelling book Frank J Garcia proposes a new way to evaluate construct and manage international trade one that is based on norms of economic justice comparative advantage and national interest Garcia examines three ways to conceptualize the problem of trade and global justice drawn from Rawlsian liberalism communitarianism and consent theory These approaches illustrate specific issues of importance to the way global justice has been theorized offering a pluralistic mode of arguing for global justice and highlighting the unique modes of discourse we employ when engaging with global justice and their implications for conceptualizing and arguing the problem Garcia suggests a new direction for trade agreements built around truly consensual trade negotiations and the kind of international economic system they would structure

Hegel and Global Justice Andrew

Buchwalter,2012-05-02 Hegel and Global Justice details the relevance of the thought of G W F Hegel for the burgeoning academic discussions of the topic of global justice Against the conventional view that Hegel has little constructive to offer to these discussions this collection drawing on the expertise of distinguished Hegel scholars and internationally recognized political and social theorists explicates the contribution both of Hegel himself and his dialectical method to the analysis and understanding of a wide range of topics associated with the concept of global justice construed very broadly These topics include universal human rights cosmopolitanism and cosmopolitan justice transnationalism international law global interculturality a global poverty cosmopolitan citizenship global governance a global public sphere a global ethos and a global notion of collective self identity Attention is also accorded the value of Hegel s account of mutual recognition for analysing themes in global justice both as regards the politics of recognition at the global level and the conditions for a general account of relations of people and persons under conditions of globalization In exploring these and related themes the authors of this book regularly compare Hegel to others who have contributed to the discourse on global justice including Kant Marx Rawls Habermas Singer Pogge Nussbaum Appiah and David Miller

Current Debates in Global Justice Gillian Brock,Darrel

Moellendorf,2006-03-30 Issues of global justice dominate our contemporary world Increasingly philosophers are turning their attention to thinking about particular issues of global justice and the accounts that would best facilitate theorizing about

these This volume of papers on global justice derives from a mini conference held in conjunction with the Pacific Division meeting of the American Philosophical Association in Pasadena California in 2004 The idea of holding a mini conference on global justice was inspired by the growth of interest in such questions and it was hoped that organizing the mini conference would stimulate further good writing in this area We believe that our mission has been accomplished We received a number of thoughtful papers on both theoretical and more applied issues showing excellent coverage of a range of topics in the domain of global justice A selection of some of the very best papers is published in this special issue of The Journal of Ethics In particular we tried to include papers that would reflect some of the range of topics that were covered at the conference to give readers a sense of both the scope of the field as it is currently emerging and the direction that the debates seem to be taking As a result of increased attention to theorizing about global justice cosmopolitanism has enjoyed a resurgence of interest as well Research Handbook on Global Justice and International Economic Law John Linarelli, 2013-09-30 The fairness of institutions of global economic governance ranks among the most pressing issues of our time
