Trials Strategy Skills And New Powers Of Persuasion 2e:

Dueling Discourses Laura Felton Rosulek, 2015 *Dueling Discourses* offers qualitative and quantitative analyses of the linguistic and discursive forms utilized by opposing lawyers in their closing arguments during criminal trials. Laura Felton Rosulek analyzes how these arguments construct contrasting representations of the same realities applying the insights and methodologies of critical discourse analysis and systemic functional linguistics to a corpus of arguments from seventeen trials. Her analysis suggests that silencing/omitting relevant information/de-emphasizing/giving information comparatively less attention and focus and emphasizing/giving information comparatively more attention and focus are the key communicative devices that lawyers rely on to create their summations. Through these processes, lawyers' lexical, syntactic, thematic, and discursive patterns both within individual narratives and across whole arguments function together to create versions of reality that reflect each individual lawyer's goals and biases. The first detailed analysis of closing arguments, this book will significantly improve our understanding of courtroom discourse. Furthermore, as previous research on all genres of discourse has examined exclusion/inclusion and de-emphasis/emphasis as separate issues rather than as steps on a continuum, this book will advance the field of discourse analysis by establishing the ubiquity of these phenomena.

Handbook of Justice Research in Law Joseph Sanders,V. Lee Hamilton,2007-05-08 Justice a word of great simplicity and almost frightening scope When we were invited to edit a volume on justice in law we joked about the small topic we had been assigned Often humor masks fear and this was certainly one of those times Throughout the project we found daunting the task of covering even a fraction of the topics that usually fall under the umbrella of justice research in law Ultimately the organization of the book emerged from the writing of it Our

introductory chapter provides a road map to how the topics weave together but as is so often the case it was written last not first. It was only when we had chapters in hand that we began to see how the many strands of justice research might be woven together. Chapters 2-4 on the basic forms of justice: procedural, retributive and distributive are the lynchpin of the volume; they provide the building blocks that permit us to think and write about each of the other substantive and applied chapters in terms of how they relate to the fundamental forms of justice. In the large central section of the volume, Chapters 5-9 the contributors address many ways in which the justice dimensions relate to one another. Most important for law is the relationship of perceptions of procedural justice and the two types of substantive justice: retributive and distributive.

Corinthians, Volume 40 Ralph P. Martin, 2017-10-10. Pastors and students will appreciate this new edition with its up-to-date bibliography and discussion of pertinent issues. In this full revision and update of the book of Second Corinthians, Dr. Ralph P. Martin addresses the scholarly questions about the text of the epistle and the significance of Paul's thought for Christian living and ministry. In a penetrating analysis of Paul's responses to the various crises within the Corinthian congregation, Dr. Martin gives insight into the particular problems of Christianity as expressed in the hedonistic cosmopolitan setting of Corinth. He shows how Paul's attempt to clearly distinguish the gospel from Hellenistic Judaism and Hellenistic Jewish Christian ideology results in a moving statement of the Christian message. Rather than the theology of glory prevalent in Corinth, Paul articulates his theology of the Cross as a theology of weakness of servanthood and ministry. What was at stake at Corinth, says Dr. Martin, was nothing less than the essence of the kerygma as expressed in the way of the cross for proclamation and daily living. New sections on the Collection and Rhetoric have been added, and the issues of Composition and Social Setting of the letter have been included along with topics such as the Spirit, the Opponents, Paul's Theology and the Resurrection in this epistle. The Word Biblical Commentary series offers the best in critical scholarship, firmly committed to the authority of Scripture as divine revelation. It is perfect for scholars, students of the Bible, ministers, and anyone who wants a theological understanding of Scripture.
