Wake Up Or Blow Up! Frank Charles Laubach,1951 Civilizational Imperatives Oliver P. Charbonneau,2020-09-15 In Civilizational Imperatives Oliver Charbonneau reveals the little known history of the United States colonization of the Philippines Muslim South in the early twentieth century Often referred to as Moroland the Sulu Archipelago and the island of Mindanao were sites of intense US engagement and laboratories of colonial modernity during an age of global imperialism Exploring the complex relationship between colonizer and colonized from the late nineteenth century until the eve of the Second World War Charbonneau argues that American power in the Islamic Philippines rested upon a transformative vision of colonial rule Civilization protection and instruction became watchwords for US military officers and civilian administrators who enacted fantasies of racial reform among the diverse societies of the region Violence saturated their efforts to remake indigenous politics and culture embedding itself into governance strategies used across four decades Although it took place on the edges of the Philippine colonial state this fraught civilizing mission did not occur in isolation It shared structural and ideological connections to US settler conquest in North America and also borrowed liberally from European and Islamic empires These circuits of cultural political and institutional exchange accessed by colonial and anticolonial actors alike gave empire in the Southern Philippines its hybrid character Civilizational Imperatives is a story of colonization and connection reaching across nations and empires in its examination of a Southeast Asian space under US sovereignty It presents an innovative new portrait of the American empire s global dimensions and the many ways they shaped the colonial encounter in the Southern Philippines Protestants Abroad David A. Hollinger,2019-06-11 Between the 1890s and the Vietnam era many thousands of American Protestant missionaries were sent to live throughout the non European world They expected to change the people they encountered but those foreign people ended up transforming the missionaries Their experience abroad made many of these missionaries and their children critical of racism imperialism and religious orthodoxy When they returned home they brought new liberal values back to their own society Protestants Abroad reveals the untold story of how these missionary connected individuals left an enduring mark on American public life as writers diplomats academics church officials publishers foundation executives and social activists **The Living Church** ,1951 Critical Bibliography of Religion in America, Volume IV, parts 1 and 2 Nelson Rollin Burr,2015-12-08 Volume IV bound as two volumes provides a critical and descriptive bibliography of religion in American life that is unequalled in any other source Arranged topically so that books and articles on a single subject are discussed in relation to each other and carefully cross referenced and indexed it will be an indispensable tool for anyone exploring further into American religion or related subjects Originally published in 1961 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy
