A Pedagogy for Planetary Convivência Débora B. A. Junker,2025-01-30 A Pedagogy for a Planetary Convivencia presents a comprehensive approach to education that aims to promote emotional resilience empathy and ethical consciousness The ultimate objective is to inspire us to imagine a more equitable world where indigenous people are respected and valued where cultural diversity is celebrated and where relationships between humans and the natural world are based on reciprocity and care Grounded on principles of critical pedagogy Freirean philosophy and liberation theology this book makes the case that advocating change without a sincere commitment to social justice is a betrayal of the millions of people who still face dehumanization that criticism without love is pointless and that denunciation without compassion is damaging Therefore the book invites to embrace hope in order to strengthen our relationships to embrace love in order to inspire our creativity and to embrace courage in order to express gestures of tenderness The Shaman's Journey Liz Francis,2016-02-25 The Shaman s Journey not only includes stories in Liz s life where she has communicated and learnt from Spirit but also includes journeys and meditations where she helps you to visit the Spirit world yourself and learn how to live your life in a shamanic way She talks about when she drew Spirit Guides and tells you how you can meet your own Spirit Guides and guardian animals The book includes meditations and shamanic journeys and she has a clear and concise way of describing spirituality in a simple understandable way that is nature based **The Qur'anic Worldview** ,2011-01-01 This is a carefully reasoned positive and largely reflective work Looking back at the various stages of Islamic historical development AbuSulayman puts forward a thesis that focuses on the recovery of what is termed the Qur anic worldview By this is meant an ethical monotheistic and purposeful perspective on the world and those within it Our faith will only be complete when we have become utterly sincere in our love for God a love expressed in a pure passionate love for goodness and truth in this world It was the strict internalization of this perspective and close adherence to the principles of the Qur an which AbuSulayman contends played a key factor in galvanizing the devout and intensely God conscious followers of fledgling Islam to achieve the successes that they once did the profound historical and global impact of which is still the subject of much study and admiration today The rebirth of Islamic identity through this Qur anic worldview is the key requirement of our times and a prerequisite for any future healthy and viable development of Muslim societies Islam and the Destiny of Man Charles Le Gai Eaton,Gai Eaton,1985-09-30 Islam and the Destiny of Man by Charles Le Gai Eaton is a wide ranging study of the Muslim religion from a unique point of view The author a former member of the British Diplomatic Service was brought

up as an agnostic and embraced Islam at an early age after writing a book commissioned by T S Eliot on Eastern religions and their influence upon Western thinkers As a Muslim he has retained his adherence to the perennial philosophy which he maintains underlies the teachings of all the great religions The aim of this book is to explore what it means to be a Muslim a member of a community which embraces a quarter of the world s population and to describe the forces which have shaped the hearts and the minds of Islamic people After considering the historic confrontation between Islam and Christendom and analysing the difference between the three monotheistic faiths Judaism Christianity and Islam the author describes the two poles of Muslim belief in terms of Truth and Mercy the unitarian truth which is the basis of the Muslim s faith and the mercy inherent in this truth In the second part of the book he explains the significance of the Qur an and tells the dramatic story of Muhammad s life and of the early Caliphate Lastly the author considers the Muslim view of man s destiny the social structure of Islam the role of art and mysticism and the inner meaning of Islamic teaching concerning the hereafter Throughout this book the author is concerned not with the religion of Islam in isolation but with the very nature of religious faith its spiritual and intellectual foundations and the light it casts upon the mysteries and paradoxes of the human condition
