Misrecognitions Ben Parker,2024-03-15 Misrecognitions mounts a vigorous defense of the labyrinthine plotting of Victorian novels notorious for their implausible concluding revelations and coincidences Critics have long decried Victorian recognition scenes the reunions and retroactive discoveries of identity that too conveniently bring the

story to a close as regrettable contrivances Ben Parker counters this view by showing how these recognition scenes offer a critique of the social and economic misrecognitions at work in nineteenth century capitalism Through a meticulous analysis of novels by Charles Dickens Anthony Trollope and Henry James as well as Arthur Conan Doyle s Sherlock Holmes stories Misrecognitions tracks how the Victorian novel translates the financialized abstractions of capital into dramas of buried secrets and disguised relations Drawing on Karl Marx s account of commodity fetishism and reification Parker contends that by configuring capital as an enigma to be unveiled Victorian recognition scenes dramatize the inversions of agency and temporality that are repressed in capitalist production In plotting capital as an agent of opacity and misdirection Victorian novels and their characteristic dialectic of illusion and illumination reveal the plot hole in capitalism itself **Sermons ...**
