**This Thing Called Reason** Benjamin K. Akih,2025-05-06 This book offers a conceptual analysis of reason proposing a plausible theory to resolve persistent vagueness in the historical use of the concept The proposed theory leads to the view that reason is fundamentally subjective and dependent on non inferential matters of faith Despite the inherent subjectivity we can arrive at a consensus in reasoning exercises because we all participate in a universal minimum religion that grounds all reasoning True atheism is therefore impossible This analysis bears on debates about the relation between faith and reason as well as the relation between ethics based on reason and ethics based on sentiments The book further shows that this new and original view of religiously constrained reason ought to equally inform our thinking about applied ethics such as politics law and economics

**Error and Inference** Deborah G. Mayo,Aris Spanos,2009-10-26 Although both philosophers and scientists are interested in how to obtain reliable knowledge in the face of error there is a gap between their perspectives that has been an obstacle to progress By means of a series of exchanges between the editors and leaders from the philosophy of science statistics and economics this volume offers a cumulative introduction connecting problems of traditional philosophy of science to problems of inference in statistical and empirical modelling practice Philosophers of science and scientific practitioners are challenged to reevaluate the assumptions of their own theories philosophical or methodological Practitioners may better appreciate the foundational issues around which their questions revolve and thereby become better applied philosophers Conversely new avenues emerge for finally solving recalcitrant philosophical problems of induction explanation and theory testing

Mind is an outstanding reference source to the full span of Murdoch's philosophical work comprising 37 specially commissioned chapters written by an international team of leading scholars.
