When China Ruled The Seas:

When China Ruled the Seas Louise Levathes, 1994 The Treasure Fleet of the Dragon Throne 1405 33 When China Ruled the Seas Louise Levathes, 1996 When China Ruled the Seas Louise Levathes, 2014-12-02 One hundred years before Columbus and his fellow Europeans began their voyages of discovery fleets of giant junks commanded by the eunuch admiral Zheng He and filled with the empire's finest porcelains lacquerware and silk ventured to the world's four corners Seven epic expeditions brought China's treasure ships across the China Seas and Indian Ocean from Japan to the spice island of Indonesia and the Malabar Coast of India on to the rich ports of the Persian Gulf and down the East African coast to China's El Dorado and perhaps even to Australia three hundred years before Captain Cook's landing It was a time of exploration and expansion but it ended in a retrenchment so complete that less than a century later it was a crime to go to sea in a multimasted ship In *When China Ruled the Seas* Louise Levathes takes a fascinating and unprecedented look at this dynamic period in China's enigmatic history focusing on the country's rise as a naval power that briefly brought half the world under its nominal authority Drawing on eyewitness accounts official Ming histories and African Arab and Indian sources many translated for the first time Levathes brings readers inside China's most illustrious scientific and technological era She sheds new light on the historical and cultural context in which this great civilization thrived as well as the perception of China by other contemporary cultures Beautifully illustrated and engagingly written *When China Ruled the Seas* is the fullest picture yet of the early Ming dynasty the last flowering of Chinese culture before the Manchu invasion *Leaders* General Stanley McChrystal, Jeff Eggers, Jay Mangone, 2018-10-23 An instant national bestseller Stanley McChrystal the retired US Army general and bestselling author of *Team of Teams* profiles thirteen of history's great leaders including Walt Disney Coco Chanel and Robert E Lee to show that leadership is not what you think it is and never was Stan McChrystal served for thirty four years in the US Army rising from a second lieutenant in the 82nd Airborne Division to a four star general in command of all American and coalition forces in Afghanistan During those years he worked with countless leaders and pondered an ancient question What makes a leader great He came to realize that there is no simple answer McChrystal profiles thirteen famous leaders from a wide range of eras and fields from corporate CEOs to politicians and revolutionaries He uses their stories to explore how leadership works in practice and to challenge the myths that complicate our thinking about this critical topic With Plutarch's *Lives* as his model McChrystal looks at paired sets of leaders who followed unconventional paths to success For instance Walt Disney and Coco Chanel built empires in very different ways Both had public personas that sharply contrasted with how they lived in private Maximilien Robespierre helped shape the French Revolution in the eighteenth century Abu Musab al Zarqawi led the jihadist insurgency in Iraq in the twenty first We can draw surprising lessons from them about motivation and persuasion Both Boss Tweed in nineteenth century New York and Margaret Thatcher in twentieth century Britain followed unlikely roads to the top of powerful institutions Martin Luther and his future namesake

Martin Luther King Jr both local clergymen emerged from modest backgrounds to lead world changing movements Finally McChrystal explores how his former hero General Robert E Lee could seemingly do everything right in his military career and yet lead the Confederate Army to a devastating defeat in the service of an immoral cause Leaders will help you take stock of your own leadership whether you re part of a small team or responsible for an entire nation **The ^ABoundless Sea** David Abulafia,2019-09-16 A sweeping history of the world through its oceans and seas and their interconnections

China's Western Horizon Daniel S. Markey, 2020 Under the ambitious leadership of President Xi Jinping China is zealously transforming its wealth and economic power into potent tools of global political influence But China's foreign policy initiatives even the vaunted Belt and Road will be shaped and redefined as they confront the ground realities of local and regional politics outside China In China's Western Horizon Daniel S Markey a scholar of international relations and former member of the U S State Department's policy planning staff previews how China's efforts are likely to play out along its western horizon across the swath of Eurasia that includes South Asia Central Asia and the Middle East Drawing from extensive interviews travels and historical research Markey describes how perceptions of China vary widely within states such as Pakistan Kazakhstan and Iran Powerful and privileged groups across the region often expect to profit from their connections to China while others fear commercial and political losses Similarly Eurasian statesmen are scrambling to harness China's energy purchases arms sales and infrastructure investment These leaders are working with China in order to outdo their strategic competitors including India and Saudi Arabia and simultaneously negotiating relations with Russia and America On balance Markey anticipates that China's deepening involvement will play to the advantage of regional strongmen and exacerbate the political tensions within and among Eurasian states To make the most of America's limited influence in China's backyard and elsewhere he argues that U S policymakers should pursue a selective and localized strategy to serve America's specific aims in Eurasia and to better compete with China over the long run
