White, 2011-09-01 The Challenge of Blackness examines the history and legacy of the Institute of the Black World IBW one of the most important Black Freedom Struggle organizations to emerge in the aftermath of the assassination of Dr Martin Luther King Jr A think tank based in Atlanta the IBW sought to answer King's question Where do we go from here Its solution was to organize a broad array of leading Black activists scholars and intellectuals to find ways to combine the emerging academic discipline of Black Studies with the Black political agenda Throughout the 1970s debates over race and class in the United States grew increasingly hostile and the IBW's approach was ultimately unable to challenge the growing conservatism By using the IBW as the lens through which to view these turbulent years Derrick White provides an exciting new interpretation of the immediate post civil rights years in America *50 Events That Shaped African American History* Jamie J. Wilson, 2019-09-19 This two volume work celebrates

50 notable achievements of African Americans highlighting black contributions to U S history and examining the ways black accomplishments shaped American culture This two volume encyclopedia offers a unique look at the African American experience from the arrival of the first 20 Africans at Jamestown through the launch of the Black Lives Matter movement and the Ferguson Protests It illustrates subjects such as the Jim Crow period the Brown v Board of Education case that overturned segregation Jackie Robinson s landmark integration of major league baseball and the election of Barack Obama as president of the United States Drawing from almost 400 years of U S history the work documents the experiences and impact of black people on every aspect of American life Presented chronologically the selected events each include at least one primary source to provide the reader with a first person perspective These range from excerpts of speeches given by famous African American figures to programs from the March on Washington The remarkable stories collected here bear witness to the strength of a group of people who chose to survive and found ways to work collectively to force America to live up to the promise of its founding

In an Inescapable Network of Mutuality Lewis V. Baldwin, Paul R. Dekar, 2013-08-30 The scholarship on Martin Luther King Jr has too often cast him in the image of the Southern black preacher and the American Gandhi while ignoring or trivializing his global connections and significance This groundbreaking work written by scholars religious leaders and activists of different backgrounds addresses this glaring pattern of neglect in King studies King is treated here as both a global figure and a forerunner of much of what is currently associated with contemporary globalization theory and praxis The contributors to this volume agree that King must be understood not only as a thinker visionary and social change agent in his own historical context but also in terms of his meaning for the different generations who still appeal to him as an authority inspiration and model of exemplary service to humanity The task of engaging King both in context and beyond context is fulfilled in remarkable ways in this volume without doing essential violence to this phenomenal figure

The Voice of Conscience Lewis V. Baldwin, 2010 Before he was a civil rights leader the Rev Martin Luther King Jr was a man of the church His father was a pastor and much of young Martin s time was spent in Baptist churches He went on to seminary and received a Ph D in theology In 1953 he took over leadership of Dexter Avenue Baptist Church in Atlanta The church was his home But as he began working for civil rights King became a fierce critic of the churches both black and white He railed against white Christian leaders who urged him to be patient in the struggle or even opposed civil rights altogether And while the black church was the platform from which King launched the struggle for civil rights he was deeply ambivalent toward the church as an institution and saw it as in constant need of reform In this book Lewis Baldwin explores King s complex relationship with the Christian church from his days growing up at Ebenezer Baptist to his work as a pastor to his battles with American churches over civil rights to his vision for the global church King Baldwin argues had a robust and multifaceted view of the nature and purpose of the church that serves as a model for the church in the 21st century

The Domestication of Martin Luther King Jr. Lewis V. Baldwin, Rufus Burrow Jr., 2013-07-03 Clarence B Jones close

King advisor and draft speechwriter has done much to reinforce a conservative hijacking of King's image with the publication of his controversial books *What Would Martin Say* 2008 and *Behind the Dream* 2011 King emerges from Jones's books not as a prophetic radical who attacked systemic racial injustice economic exploitation and wars of aggression but as a fiercely conservative figure who would oppose affirmative action and illegal immigration *The Domestication of Martin Luther King Jr* offers a critique of Jones's work and the larger effort on the part of right wing conservatives to make King a useful symbol or the sacred aura in a protracted campaign to promote their own agenda for America This work establishes the need to rethink King's legacy of ideas and activism and its importance for our society and culture
