Richard E. Ferdig, Kathryn Kennedy

What Works In K 12 Online Learning:

What Works in K-12 Online Learning Cathy Cavanaugh, Robert L. Blomeyer, 2007 Provides an overview of effective online teaching and learning practices

Handbook of Research on K-12 Online and Blended Learning Richard E. Ferdig, Kathryn Kennedy, 2014 The Handbook of Research on K 12 Online and Blended Learning is an edited collection of chapters that sets out to present the current state of research in K 12 online and blended learning The beginning chapters lay the groundwork of the historical international and political landscape as well as present the scope of research methodologies used Subsequent sections share a synthesis of theoretical and empirical work describing where we have been what we currently know and where we hope to go with research in the areas of learning and learners content domains teaching the role of the other and technological innovations Book home page

[A Teacher's Guide to Online Learning](#) Lindy Hockenbary, 2021-06 Are you a K 12 educator who is teaching students over the internet with no face to face interaction Online learning presents new challenges Author Lindy Hockenbary does not sugarcoat the fact that online learning is different than face to face learning She tackles the most common questions of new online instructors including How do you engage learners in a virtual environment How do you develop relationships with students whom you never see in person What does classroom management even look like in an online class How do you assess students when there is no way to know if they are looking up all the answers How do you ensure clear communication since you cannot stand over a learner's shoulder and ensure a task is accomplished How do you communicate with and support the families of online learners How do you ensure equity when students are never in the same physical space This book addresses each of these questions head on by presenting key takeaways to guide online learning design Lindy brings her experience as a classroom teacher and instructional technologist to create a clear picture of online learning strategies Other classroom teachers school leaders and instructional technologists have contributed to the book to provide a well rounded perspective on the topic of online learning This book was designed with K 12 teachers in mind but the majority of information can be applied to higher education postsecondary learning environments as well

Handbook of Research on K-12 Blended and Virtual Learning Through the i²Flex Classroom Model Avgerinou, Maria D., Pelonis, Peggy, 2021-03-05 Teaching models that focus on blended and virtual learning have become important during the past year and have become integral for the continuance of learning The i Flex classroom model a variation of blended learning allows non interactive teaching activities to take place without teachers direct involvement freeing up time for more meaningful teacher student and student student interactions There is evidence that i Flex leads to increased student engagement and motivation as well as better exploitation of teachers and classroom time leading to the development of higher order cognitive skills as well as study skills for students future needs related to citizenship college and careers The Handbook of Research on K 12 Blended and Virtual Learning Through the i Flex Classroom Model focuses not only on how to design deliver and evaluate courses but also on how to assess teacher

performance in a blended i2Flex way at the K12 level The book will discuss the implementation of the i Flex isquareFlex a non traditional learning methodology which integrates internet based delivery of content and instruction with faculty guided student independent learning in combination with face to face classroom instruction aiming at developing higher order cognitive skills within a flexible learning design framework While highlighting new methods for improving the classroom and learning experience in addition to preparing students for higher education and careers this publication is an essential reference source for pre service and in service teachers researchers administrators educational technology developers and students interested in how the i2Flex model was implemented in classrooms and the effects of this learning model K-12 Education: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources,2013-09-30 Primary and Secondary education is a formative time for young students Lessons learned before the rigors of higher education help to inform learners future successes and the increasing prevalence of learning tools and technologies can both help and hinder students in their endeavors K 12 Education Concepts Methodologies Tools and Applications investigates the latest advances in online and mobile learning as well as pedagogies and ontologies influenced by current developments in information and communication technologies enabling teachers students and administrators to make the most of their educational experience This multivolume work presents all stakeholders in K 12 education with the tools necessary to facilitate the next generation of student teacher interaction **Handbook of Distance Education** Michael Grahame Moore,William C. Diehl,2018-12-07 The Handbook of Distance Education 4th Edition is a comprehensive compendium of research in the field of distance education The volume is divided into four sections covering the historical and theoretical foundations of distance education attributes of teaching and learning using technology management and administration and different audiences and providers Throughout leading scholars address future research needs and directions based on current research established practices and recent changes to implementation pedagogy and policy Handbook of Research on Blended Learning Pedagogies and Professional Development in Higher Education Keengwe, Jared,2018-07-20 Online and blended courses are becoming increasingly prevalent in higher education settings and the pressures to incorporate these environments highlights the increased demand to serve a generation that prefers learning through experience or through interacting with learning tools Challenges arise in assisting instructors in facilitating and designing blended learning environments that will provide effective learning for all students The Handbook of Research on Blended Learning Pedagogies and Professional Development in Higher Education is a critical research publication that delves into the importance of effective professional development for educators planning and teaching online or blended courses It also establishes the benefits of technology mediated learning environments over traditional learning methods Highlighting a wide array of topics such as online learning environments active learning model and educational development this publication explores technology based teaching methods in higher education This book is targeted toward educators educational administrators

academicians researchers and professionals within the realm of higher education Revolutionizing K-12 Blended Learning through the i²Flex Classroom Model Avgerinou, Maria D., Gialamas, Stefanos P., 2016-06-20 Blended learning has gained significant attention recently by educational leaders practitioners and researchers i Flex a variation of blended learning is based on the premise that certain non interactive teaching activities such as lecturing can take place by students without teachers direct involvement Classroom time can then be used for educational activities that fully exploit teacher student and student student interactions allowing for meaningful personalized feedback and scaffolding on demand Revolutionizing K 12 Blended Learning through the i Flex Classroom Model presents a well rounded discussion on the i Flex model highlighting methods for K 12 course design delivery and evaluation in addition to teacher performance assessment in a blended i Flex environment Emphasizing new methods for improving the classroom and learning experience in addition to preparing students for higher education and careers this publication is an essential reference source for pre service and in service teachers researchers administrators and educational technology developers *Proven Programs in Education: Science, Technology, and Mathematics (STEM)* Robert E. Slavin, 2014-05-12 Let the best evidence based practices guide you to STEM success This series turns research into practice with practical evidence based advice from the world s premier education researchers and authors In this volume top articles on science technology and math provide multiple perspectives on current STEM issues as well as strategies for effective teaching of STEM subjects at all grade levels Each chapter offers Research and case studies showcasing innovative approaches to teaching Best practices validated by research that have stood the test of time Practical advice you can put to work right away Sources for additional exploration of the research **Handbook of Distance Education** Michael G. Moore, 2013 This work provides overviews and summaries of the research and practice of distance education in the USA It addresses such questions as how distance education is best practised at the level of the teacher as well as the administrator
