Whatever Happened To The British Motorcycle Industry:

Whatever Happened to the British Motorcycle Industry? Bert Hopward, 1981 *Whatever Happened to the British Motorcycle Industry* Bert Hopwood, 1984 **Whatever Happened to the British Motorcycle Industry?** Bert Hopwood, 1998 The true inside story of what caused the dramatic decline of the British motorcycle industry at a time when it had to face up to increasing competition from foreign manufacturers *What We Have Lost* James Hamilton-Paterson, 2018-10-04 Exquisitely written and ripe with detail Sunday Times An engaging book He knows his British stuff The Times One of England's most skilled and alluring prose writers in or out of fiction has done something even more original London Review of Books WHAT WE HAVE LOST IS A MISSILE AIMED AT THE BRITISH ESTABLISHMENT A BLISTERING INDICTMENT OF POLITICIANS AND CIVIL SERVANTS PLANNING AUTHORITIES AND FINANCIAL INSTITUTIONS WHO HAVE PRESIDED SINCE 1945 OVER THE DECLINE OF BRITAIN'S INDUSTRIES AND REPLACED THE GREAT IN BRITAIN WITH A FOR SALE SIGN HUNG AROUND THE NECK OF THE NATION Between 1939 and 1945 Britain produced around 125 000 aircraft and enormous numbers of ships motor vehicles armaments and textiles We developed radar antibiotics the jet engine and the computer Less than seventy years later the major industries that had made Britain a global industrial power and employed millions of people were dead Had they really been doomed and if so by what Can our politicians have been so inept Was it down to the superior competition of wily foreigners Or were our rulers culturally too hostile to science and industry James Hamilton Paterson in this evocation of the industrial world we have lost analyzes the factors that turned us so quickly from a nation of active producers to one of passive consumers and financial middlemen **The Isle of Man TT Races** Simon Vaukins, 2014-08-11 Cats with no tails the one thousand year old Tynwald assembly offshore finance institutions and motorcycle road racing are all ingredients that help to define a Manx national identity Modern high powered motorcycles being pushed to their limits on a course that has remained largely unchanged since 1911 is perhaps the most literal demonstration of the new meeting the old on an island where the traditional and the modern exist peacefully and do not clash The Isle of Man TT Races provides an excellent starting point from which to examine the twists and turns of the island's twentieth century history and most importantly the deep links between sport and society This book examines the origins and expansion of the Isle of Man TT from the first motorcar races in 1904 up to the present day charting the event's acceleration from a small domestic competition to a large scale international event which has helped fuel the island's reputation as the home of motorcycle road racing In examining the links between sport and society this book uses the TT races to look at changes in the mechanics of Manx politics the streamlining of the Manx economy and construction of Manx national identity it is not a history of winners and losers at the TT It is because the TT has deep roots in the history of the island and because it has come to form a significant part of the island's identity that this motorcycle race continues to thrive in the present day The TT makes the Isle of Man distinctive others have tried and failed

to replicate this event Where else in the world can the modern motorcycle racer take in so much history and heritage at close to 200 mph

[The Ambiguities of European Comic-book Bikers](#) David Walton, 2024-08-19 In this book David Walton explores European comic book biker publications as a subgenre of popular culture Using a multidisciplinary approach he reveals an intricate amalgam of ingenuity irony and highly ambiguous humor The creative resourcefulness of the comic book biker authors is seen to dramatize and celebrate the material existence of motorcycles and lifestyles while laughing at the foibles inconsistencies manias fantasies and practices of those characterised as motorized flâneurs At the core of Walton's analysis is the exploration of identity formation marked by tensions between individualism and collective affinities undermined by egoism and competitiveness At the same time Walton argues that the storylines despite much comic invention caricature and exaggeration create resonances which hold up a distorted but highly revealing mirror to the multiple subgroups of people who ride motorcycles for pleasure The author also demonstrates how the implied biker readers of this subgenre confront

comic representations of themselves which repeatedly undermine any positive self image they may possess Yet the comics are also seen to offer valuable insights into much broader cultural concerns ranging from subculture consumption habits in authenticity taste freedom risk and delinquency without forgetting other key aspects of cultural studies like class race and ethnicity gender sexuality and ecocriticism
