Thing There Is? Robert E. Wells, 1993-01-01 The blue whale is the biggest creature on Earth But a hollow Mount Everest could hold billions of whales And though Mount Everest is enormous it is pretty small compared to the Earth This book is an innovative exploration of size and proportion **What's Older Than a Giant Tortoise?** Robert E. Wells, 2004-01-01 If

medals were awarded to animals for living a long time then a giant tortoise would certainly win one Some giant tortoises have lived for more than 150 years Still there are things on this planet much older than giant tortoises Some of the giant sequoia trees that grow in California would be more than 3 000 years old But the trees aren t that old compared to the Barringer Crater in Arizona that was made about 49 000 years ago And it s almost impossible to imagine that 65 million years ago the T Rex dinosaur roamed this planet but we have the skeletons to prove it *What's Smaller Than a Pygmy*

Wells, 2002-01-01 Oppenheim Toy Portfolio Gold Seal Award 2003 What would life be like with no clocks and no calendars How would you know when to get up in the morning How would you know when baseball season was about to start Long long ago all people could do was watch the sun and moon and try to figure things out Eventually they made simple clocks like sundials And as time marched on people came up with more ways to measure it Today quartz crystal watches and atomic clocks tell us EXACTLY what time it is at any moment all over the world **Did a Dinosaur Drink This Water?** Robert E. Wells, 2006-01-01 It s hard to imagine the molecules in the glass of water you just finished might have once been part of a water hole that dinosaurs drank from In this fascinating new book about the water cycle readers will find that while it might be hard to imagine it s true The author Robert E Wells explains the complete water cycle and also discusses ocean currents ocean and lake habitats and hydroelectricity He also touches on water pollution and our responsibility to keep our water clean The author s bright cartoon illustrations make this information especially appealing to kids *Why Do Elephants Need the Sun?* Robert E.
