When Hurricane Katrina Hit Home:

When Hurricane Katrina Hit Home Gail Langer Karwoski, 2013-06-04 Chazz Cohen lives with his grandmom in the Garden District of New Orleans. In his family, money is no problem. But money won't buy Chazz what he wants: a real home with his mom. Across town in the Ninth Ward, Lyric Talbert wishes her mom didn't expect so much from her, especially when her little brother gets sick. It seemed like the storm would blow over as so many had. But Katrina burst the levees and the world turned to chaos for Chazz and Lyric and their families. They quickly learn that though their worlds were different before the storm, it was their courage and compassion that would help them make it through. Through the alternating stories of Chazz and Lyric, acclaimed children's author Gail Langer Karwoski chronicles the disaster that forever changed New Orleans and its people.

Extreme Weather Hits Home John Banta, 2007-11-01 We know how to prepare our homes for each seasonal change, but do we know how to prepare for climate change? Violent weather events like floods, tornadoes, ice storms, and hurricanes only tell part of the story. Climate change is frequently more subtle, but its effects on our homes and properties can still be devastating. Nearly 50 percent of North America has a potential for structural damage from shifting moisture in expansive clay soils, a condition that is already costing billions of dollars each year. Humidity is projected to increase, trapping moisture in wall cavities and resulting in deterioration. As the climate changes and moisture levels adjust, there are a number of proactive steps that can be taken to prevent or lessen expensive repairs. *Extreme Weather* is the only book of its kind that shows how to protect your home or business from climate change by focusing on the following areas: Risk and causal assessment due to region and soil; Extreme weather's rapid and slow effects; Site foundation, wall, and roof considerations and modifications; Insurance options; Anticipated changes for the United States, Canada, and Mexico. Our homes are one of the most expensive investments we will ever make. They are also our refuge from the elements, and we must protect them so they can protect us. This book is a valuable resource for all property owners. John C. Banta is an indoor environmental consultant with twenty years of experience in building biology, building science, and indoor environmental quality.
