Where The Bear Walks:

Where the Bear Walks Chris Nunnally, 2013-05-05 Of all the creatures on earth bears are among the most revered and the most feared Once numbering in the hundreds of thousands grizzlies in North America were systematically driven to near extinction in a mass persecution fueled by fear and exaggerated stories That paranoia has remained in one form or another to this day lurking in the minds of backcountry travelers and haunting the wooded slopes of our National Parks Now with the catastrophic loss of the Yellowstone grizzly s most vital food source the battle lines are being re drawn as the hungry animals encroach on human habitations in search of protein With public fears escalating drastic and unsound decisions are being made to reduce the population of a species with one of the slowest reproductive rates of any creature on the planet Profiled in this book are the efforts of a special few who daring to get closer to these animals than anyone else are working to show that bears are not the malicious killers of horror stories and that in order to save them we must first understand them *A Libertarian Walks Into a Bear* Matthew Hongoltz-Hetling, 2020-09-15 Simultaneously hilarious poignant and deeply unsettling The New Republic A tiny American town s plans for radical self government overlooked one hairy detail no one told the bears Once upon a time a group of libertarians got together and hatched the Free Town Project a plan to take over an American town and completely eliminate its government In 2004 they set their sights on Grafton NH a barely populated settlement with one paved road When they descended on Grafton public funding for pretty much everything shrank the fire department the library the schoolhouse State and federal laws became meek suggestions scarcely heard in the town s thick wilderness The anything goes atmosphere soon caught the attention of Grafton s neighbors the bears Freedom loving citizens ignored hunting laws and regulations on food disposal They built a tent city in an effort to get off the grid The bears smelled food and opportunity *A Libertarian Walks Into a Bear* is the sometimes funny sometimes terrifying tale of what happens when a government disappears into the woods Complete with gunplay adventure and backstabbing politicians this is the ultimate story of a quintessential American experiment to live free or die perhaps from a bear **A Boone and Crockett Club Field Guide to Measuring and Judging Big Game** Philip L. Wright, William H. Nesbitt, 2003 A publication that is intended to answer questions about how to score big game trophies Contains numerous illustrations as well as pointers on field judging trophy quality in the field *Watch the Bear* Derek Stonorov, 2023-03 Derek Stonorov has spent the better part of fifty years watching brown bears as a research scientist and guide in some of Alaska s most beautiful wild places As a dyslexic kid who was more interested in hunting and cars than academics he managed to collect objective data as well as make observations and insights about what he learned to call the community of bears *Watch the Bear* takes the reader from the 1960s when salmon were plentiful Stonorov s hair was long and he could spend an entire summer watching hundreds of bears without seeing another human to today when bear guiding companies are ubiquitous and solitude in bear country is a whole lot harder to find Mixing memoir anecdotes and science Stonorov provides an inquiry into brown bear communication and social

behavior as well as advice on living in harmony with bears Through good science made accessible with stories Stonorov offers readers an engaging and breath taking journey into the world of a legendary but often misunderstood species

Great Bear Rainforest Ian McAllister,Alex Van Tol,2019-02-12 In the northwest corner of British Columbia between the Alaska BC border and the northern tip of Vancouver Island lies a land of forest green and sparkling blue From massive whales to tiny herring spirit bears to sea wolves an incredibly diverse array of wildlife calls this land home Part of the largest coastal temperate rainforest in the world the Great Bear Rainforest is one the last untouched places on Earth Experience this magical place through the power of IMAX and the giant screen Learn about the people who make their home in the Great Bear Rainforest and are committed to preserving and protecting it Hear how Indigenous youth are coming together and taking responsibility for this place they call home Go behind the scenes of the production of the film to learn about the incredible challenges of filming in such difficult conditions and feel the wonder that comes from experiencing this wild place
