## **Wages For Housework In The Decade Of Womens Liberation:**

*Wages for Housework in the Decade of Women's Liberation* Elizabeth Homans, 2008      **Feminists Who Changed America, 1963-1975** Barbara J. Love, 2006-09-22 Documents the key feminists who ignited the second wave women's movement. This work tells the stories of more than two thousand individual women and a few notable men who together reignited the women's movement and made permanent changes to entrenched customs and laws.

*Wages for Housework* Louise Toupin, 2018-09-20 Revolutionary feminism is resurging across the world. But what were its origins? In the early 1970s the International Feminist Collective began to organise around the call for recognition of the different forms of labour performed by women. They paved the way for the influential and controversial feminist campaign Wages for Housework, which made great strides towards driving debates in social reproduction and the gendered aspects of labour. Drawing on extensive archival research, Louise Toupin looks at the history of this movement between 1972 and 1977, featuring unpublished conversations with some of its founders, including Silvia Federici and Mariarosa Dalla Costa, as well as activists from Italy, Germany, Switzerland, the United States, and Canada. Encompassing rich theoretical traditions, including autonomism, anti-colonialism, and feminism, whilst challenging both classical Marxism and the mainstream women's movement, the book highlights the power and originality of the campaign. Among their many innovations, these pathbreaking activists approached gender, sexuality, race, and class together in a way that anticipated intersectionality and had a radical new understanding of sex work.

*Historicising the Women's Liberation Movement in the Western World* Laurel Forster, Sue Bruley, 2019-07-09 The Women's Liberation Movement (WLM) of the late 1960s, 1970s, and 1980s emerged out of a particular set of economic and social circumstances in which women were unequally treated in the home, the workplace, and in culture and wider society. As part of the WLM, women collected together in disparate groups and contexts to express their dissatisfaction with their role and position in society, making their concerns apparent through consciousness-raising and activism. This important time in women's history is revisited in this collection, which looks afresh at the diversity of the movement and the ways in which feminism of the time might be reconsidered and historicised. The contributions here cover a range of important issues, including feminist art, local activism, class distinction, racial politics, perceptions of motherhood, girls' education, feminist print cultures, the recovery of feminist histories and feminist heritage, and they span personal and political concerns in Britain, Canada, and the United States. Each contributor considers the impact of the WLM in a different context, reflecting the variety of issues faced by women and helping us to understand the problems of the second wave. This book broadens our understanding of the impact and the implication of the WLM, explores the dynamism of women's activism and radicalism, and acknowledges the significance of this movement to ongoing contemporary feminisms. The chapters in this book were originally published as a special issue of *Women's History Review*.
