Hunsberger, 2010-03-05 According to polls most Americans believe in God But disbelief is spreading After reviewing the mounting evidence that organized religion is declining in many countries this accessible book provides the first scientific study of active atheists The authors surveyed nearly 300 members of atheist organizations in the United States Besides soliciting these nonbelievers level of education political leanings etc the researchers sought to understand how each respondent had become an atheist Had they ever believed in God or had they never Had they paid a price for their atheism Three chapters describe the levels of dogmatism zealotry and religious prejudice found among the active atheists These results compared with others obtained from more ordinary samples of atheists and strong fundamentalists often surprised the authors Uniquely the book features a chapter in which the atheists give their reaction to the study and its often surprising findings Another chapter breaks down the answers a large Canadian sample gave to the measures used in the American study according to how religious the respondent was from atheist to agnostic to four different levels of theistic intensity A clear finding emerged the more religious a group was the more their personalities prejudices and beliefs separated them from everyone else *The Macro Event* Andrew Adams, 2020-02-11 The United States political climate is prime for attack from enemies outside and within Two of the world's most dangerous Axis of Evil Iran and North Korea coordinate a nuclear missile attack designed to drive the United States to its knees Embedded groups of coordinated and well trained terrorist leaders lie waiting throughout the United States One group of radicals attacks Washington DC with a truck bomb to start the war Orders sent to other terrorist leaders around the country start the assembly of small armies of haters who aim to destroy what remains after the carnage of the nuclear attacks A critically injured president lies in a coma Many high ranking politicians are dead or missing A high altitude EMP electromagnetic pulse detonated successfully over Northern California destroys the power grids electronics and modern automobiles throughout the Western United States Secret plans created in advance by Homeland Security are the only salvation for the devastated desperate and stranded population The attack activates the plan known as the Macro Event Mass Casualty Relocation Operation The extensive well thought out MACRO Event plans must now deal with millions of stranded hungry and angry Americans now living in darkness Lee Andrew Garrett awakes in his hotel room in Las Vegas finding the twenty four hour city of light dark and panic stricken

Thousands of locals and tourists have few choices except to fight for survival Lee Garrett's obsession with Doomsday preparation is now his salvation He quickly gathers his supplies and makes a dangerous trek out of Sin City Jake Rodriguez is winning big when the lights go out The army soldier on leave from Fort Irwin California also knows getting out of Vegas is paramount Not as well prepared but a soldier Jake also finds danger as he moves quickly west toward his base in the Mohave Desert Surrounded by armed crazies taking advantage of the devastation and confusion Jake finds himself facing sure death Lee Garrett becomes his unlikely but lucky salvation United the two men continue their escape from Vegas into the desert toward the remote army base They arrive at Fort Irwin where they learn just how bad the attack has been Spread way too thin the government must somehow find ways to deal with the millions of expected refugees Lee Garrett's knowledge of his hometown makes him a valuable asset to one of the many small teams needed for control of the choke points out of Los Angeles The small town of Agua Dulce lies directly in the path of desperate people trying to flee the chaos of the big city Lee agrees to join a small force of soldiers Flown to Agua Dulce on military choppers Lee and Jake build a small but capable force of professionals and volunteers The soldiers police and volunteers band together helping the needy and fighting those who wreak havoc The situation goes from difficult to worse when a major terrorist cell heads toward Agua Dulce setting the stage for a major battle between good and evil The story does not end with this first book     The Sweeter Drug Collection: The Heart of Essence Samantha M. Hatley, 2020-09-24 The footprint of my personal Testimony was just beginning I was working at a job that wasn't footing the bill My life was in a pivot I had to decide what I was gonna do in my hardship This part of the story took flight in 1995 I was beautiful young addictive I knew my potential So I eventually linked up with Malik and not only was he a leading man in my life he was my best friend We were set up with The touch of The Most High as destiny was leading unknowingly I was heading into a new world that I adapted to like the back of my hand The fast life and all of its perks on our level of hustle I was raised and developed in street codes of honor Trust with the heart of loyalty was key A trail of love lust hope and failures I endured abuse on most levels of rage it was insane to me A crack cocaine induced network that exploded Our life was being positioned to escalate and in forgiveness as well as in our finances My attitude gets spicy in developing a character of who I was and had become Walla I went from an expected end to an unexpected end of situations A story of hustle and intelligence rocked this boat Pivots followed pivots As this Testimony is consistent with a thread of heart and becomes revealed as this too shall pass The word of laws and commandments became a portal of new commitment

When Arguments Against the Christian God Fail Marius Lotz, 2014 This book is written for ordinary people with enquiring and skeptical minds about the Christian God The author defends the Christian faith apologetics by covering a wide spectrum of topics like the credibility and compatibility of the Bible with science the Big Bang evolution and the age of the earth Christianity is an intellectual logical religion and you can believe in God the creator and also accept that God caused the Big Bang to happen use evolution to create and although human beings may originate from the great apes they are unique and

special once God made them into His image by putting his spiritual soul in them The individual today gets more than ever bombarded with attacks on Christianity by prominent atheists scientific discoveries different religions and philosophies The intellectual levels of individuals increases all the time and as knowledge increases often so does more questions arise even for believing Christians like why is there so much pain and suffering in the world Considering the limited time people have this book attempt to save time for busy individuals who cannot take a book or two out on every topic that bothers them Covering many controversial questions and arguments with counter arguments a strong case is being made that the arguments against the Christian God fail

*Grace in Auschwitz* Jean-Pierre Fortin, 2016-09-01 The postmodern human condition and relationship to God were forged in response to Auschwitz Christian theology must now address the challenge posed by the Shoah *Grace in Auschwitz* offers a constructive theology of grace that enables twenty first century Westerners to relate meaningfully to the Christian tradition in the wake of the Holocaust and unprecedented evil Through narrative theological testimonial history the first part articulates the human condition and relationship to God experienced by concentration camp inmates The second part draws from the lives and works of Simone Weil Dorothee Solle Dietrich Bonhoeffer Alfred Delp Hans Urs von Balthasar and Sergei Bulgakov to propose and apply a coherent kenotic model enabling the transposition of the Christian doctrine of grace into categories strongly correlating with the experience of Auschwitz survivors This model centers on the vulnerable Jesus Christ a God who takes on the burden of the human condition and freely suffers alongside and for human beings In and through the person of Jesus God is made present and active in the midst of spiritual desolation and destitution providing humanity and solace to others

**God Yes? God No?** Frans Komhoff, 2024-07-16 Can science rule out God To properly understand the history of the universe and humanity one can turn to any of the three religions discussed herein but gaining insights into the theories of scientists like Charles Darwin Albert Einstein and Stephen Hawking is a much better idea Komhoff takes the interested layman past God and through a series of eminent scientists on a timeless journey spanning fourteen billion years from the Big Bang to the present day In understandable steps the author guides the reader through the various fields and introduces them to theories contradictions philosophers black holes evolution logic relativity God proofs and the Big Bang singularity The appendices add in understandable language in depth introductions to the fascinating theories the author discusses According to Komhoff we live in the Cosmos of Coincidence This sheds a completely new light on the Big Questions What is man Where do we come from What is our place in the cosmos What is the meaning of our existence Where are we going And last but not least is there a God With present day knowledge his final conclusion is yes science can rule out God as the creator of man and the universe but no science cannot rule out the existence or non existence of God

**You, Me & Everyone Else** Bill Geringswald, 2011-11 A growing number of Americans seek change and redemption for our increasingly mad society but who will lead the charge This burden cannot be born by a single individual It must be a passion shared by You Me and Everyone

Else Today we are caught up in a massive societal transition that goes far beyond traditional thinking We face financial distress on Wall Street and Main Street the middle class is on the decline and our public schools rank twenty third among developed nations We struggle to deal with escalating environmental disasters political malfeasance and terrorist plots In so many ways we resemble the Roman Empire teetering on the brink of a similar downfall In this challenging and inspiring work Bill Geringswald provides a progressive overview of our society s intertwined cause and effect His visionary proposal for remediation shows how we may all undergo a personal journey of enlightenment and addresses the many problems we now share in this world Our mutual solutions will not be found in political answers but only as we work together through our Higher Power
