Kummings,2009-10-19 Comprising more than 30 substantial essays written by leading scholars this companion constitutes an exceptionally broad ranging and in depth guide to one of America s greatest poets Makes the best and most up to date thinking on Whitman available to students Designed to make readers more aware of the social and cultural contexts of Whitman s work and of the experimental nature of his writing Includes contributions devoted to specific poetry and prose works a compact biography of the poet and a bibliography **Walt Whitman** J. R. LeMaster,Donald D. Kummings,1998 Includes almost 760 entries ranging in length from 3 100 words on the first 1855 edition of Leaves of Grass to 140 words on Elizabeth Leavitt Keller Entries include biographical data thematic formal and technical considerations discussions of the poet s social and personal life and commentary on all of Whitman s works including poem clusters major poems essays and lesser known works such as the novel Franklin Evans and two dozen short stories A chronology and genealogy are included Annotation copyrighted by Book News Inc Portland OR **Holism and Evolution** Jan Christiaan Smuts,1926 **Walt Whitman in Context** Joanna Levin,Edward Whitley,2018-05-31 Walt Whitman is a poet of contexts His poetic practice was one of observing absorbing and then reflecting the world around him Walt Whitman in Context provides brief provocative explorations of thirty eight different contexts geographic literary cultural and political through which to engage Whitman s life and work Written by distinguished scholars of Whitman and nineteenth century American literature and culture this

collection synthesizes scholarly and historical sources and brings together new readings and original research *The Evolution of Walt Whitman* Roger Asselineau, 1999-09 Now nearly forty years after its original translation into English Roger Asselineau's complete and magisterial biography of Walt Whitman will remind readers of the complex weave of traditions in Whitman scholarship It is startling to recognize how much of our current understanding of Whitman was already articulated by Asselineau nearly half a century ago Throughout its eight hundred pages *The Evolution of Walt Whitman* speaks with authority on a vast range of topics that define both Whitman the man and Whitman the mythical personage Remarkably most of these discussions remain fresh and relevant and that is in part because they have been so influential In particular *The Evolution of Walt Whitman* inaugurated the study of *Leaves of Grass* as a lifelong work in progress and it marked the end of the habit of talking about *Leaves* as if it were a single unified book Asselineau saw Whitman's poetry not as a body of static data but as a constantly changing continuum whose evolution must be carefully observed Throughout *Evolution* Asselineau placed himself in the role of the observer analyzing Whitman's development with a kind of scientific detachment But behind this objective persona burned the soul of a risk taker who was willing to rewrite Whitman studies by bravely proposing what was then a controversial biographical source for Whitman's art his homosexual desires *The Evolution of Walt Whitman* is a reminder that extraordinary works of criticism never exist in and of themselves In this expanded edition Roger Asselineau has provided a new essay summarizing his own continuing journey with Whitman A foreword by Ed Folsom editor of the *Walt Whitman Quarterly* regards *Evolution* as the genesis of contemporary Whitman studies *Recent Advances in the Creation of a Process-Based Worldview* Łukasz Lamża, 2017-01-06 Process thought is an important component of contemporary philosophy Alfred North Whitehead's organic philosophy has a special place in the landscape of process thinking being detailed precise and well thought and at the same time extremely visionary and far reaching The global community of process thinkers includes physicists biologists doctors political scientists educators activists philosophers theologians and other people devoted to rethinking their disciplines in the light of process philosophy This volume presents the cutting edge in the creation of a process worldview Leading scholars from all over the world gathered to discuss how process thinking can inspire us to rethink our lives Precise philosophical language and a unifying vision are applied to core issues such as politics society education and religion The book represents a bold move from academic philosophy into the realm of actual human lives *Walt Whitman, Philosopher Poet* John W. McDonald, 2007-03-06 Was Walt Whitman celebrated poet of freedom and democracy a determinist at heart A close study of *Leaves of Grass* shows that Whitman consistently acknowledges the inevitability of all things As John McDonald argues this seeming contradiction lies at the heart of Whitman's poetry a fact continually overlooked in the more than 100 years that critics have written about the poet and his magnum opus This volume contains an extensive study of Walt Whitman's poetry that explores both Whitman's guiding philosophy and its uses to unlock meaning within *Leaves of Grass* Beginning with a detailed explanation of determinism the author examines Whitman's use of

indirection which the poet referred to at times as a game played to evade the reader's comprehension. The work seeks to define a philosophy which was in the author's opinion the most significant influence in Whitman's thought and in his art. Various poems are examined in depth including *Song of Myself*, *Passage to India* and the particularly significant *With Antecedents*. Gathered here will be evidence from Whitman's poems and prose and from his notes and quoted remarks enough evidence to show beyond doubt that determinism was indeed his most significant influence. An innovative look at one of America's greatest poets.

Reappraising the Life and Legacy of Jan C. Smuts David Boucher, Bongani Ngqulunga, 2024-08-01 In this book the authors cover both familiar and unfamiliar themes. One of the principal themes running throughout the book addresses head on the deficiency in the literature highlighted by Saul Dubow namely the question of racism and Smuts's reluctance to implement native policies that may have averted future problems rather than postpone them. We see throughout a gap between the rhetoric and policy and between policy and practice in its implementation. Amongst the familiar themes that are reappraised are Smuts's successes and failures in policies and leadership domestically and internationally. This wide ranging volume re-evaluates myriad aspects of Smuts's life, philosophy, political career and legacy. An important and timely book exploring one of South Africa's most consequential and controversial leaders. Luc Andre Brunet, *Contemporary International History*, The Open University. The book is a great contribution to South African cultural and social history. With the military element covered in other publications the editors and authors have focussed on the less well trodden aspects of Smuts's history including but not limited to discussions on the atomic bomb, counter-revolution, film, early cabinets, racialism, trusteeship, greatness, political philosophy, racial segregation and myth making. The editors have skilfully continued the longer political discussion reflecting on the myth and legacy of a prominent South African. Smuts Antonio Garcia Stellenbosch University coauthor of *Botha Smuts and the First World War* co-founder *Underground Strategy*. *A Study Guide for Walt Whitman's "I Hear America Singing"* Gale, Cengage Learning, 2016.

A Study Guide for Walt Whitman's *I Hear America Singing* excerpted from Gale's acclaimed *Poetry for Students*. This concise study guide includes plot summary, character analysis, author biography, study questions, historical context, suggestions for further reading and much more. For any literature project, trust *Poetry for Students* for all of your research needs.

Biographical Dictionary of Twentieth-Century Philosophers Stuart Brown, Diane Collinson, Robert Wilkinson, 2012-09-10 This *Biographical Dictionary* provides detailed accounts of the lives, works, influence and reception of thinkers from all the major philosophical schools and traditions of the twentieth century. This unique volume covers the lives and careers of thinkers from all areas of philosophy from analytic philosophy to Zen and from formal logic to aesthetics. All the major figures of philosophy such as Nietzsche, Wittgenstein and Russell are examined and analysed. The scope of the work is not merely restricted to the major figures in western philosophy but also covers in depth a significant number of thinkers from the near and far east and from the non-European, Hispanic language communities. The *Biographical Dictionary* also

includes a number of general entries dealing with important schools of philosophy such as the Vienna Circle or currents of thought such as vitalism. These allow the reader to set the individual biographies in the context of the philosophical history of the period. With entries written by over 100 leading philosophy scholars, the Biographical Dictionary is the most comprehensive survey of twentieth century thinkers to date.

Structure The book is structured alphabetically by philosopher. Each entry is identically structured for ease of access and covers nationality, dates and places of birth and death, philosophical style or school, areas of interest, higher education, significant influences, main appointments, main publications, secondary literature, account of intellectual development and main ideas, critical reception and impact. At the end of the book, a glossary gives accounts of the schools, movements and traditions to which these philosophers belonged, and thorough indexes enable the reader to access the information in several ways: by nationality, by major areas of contribution to philosophy (e.g. aesthetics), by major influences on the thinker concerned (e.g. Plato, Kant, Wittgenstein).

The World Looks Like This From Here Kopano Ratele, 2019-09-01. Builds a compelling case for thinking and doing psychology differently in and for Africa. What does the world look like from Africa? What does it mean to think, feel, express without apology for being African? How does one teach society and children to be African with full consciousness and pride? In institutions of learning, what would a textbook on African-centred psychology look like? How do researchers and practitioners engage in African social psychology? African-centred child development? African neuropsychology or any area of psychology that situates African realities at the centre? Questions such as these are what Kopano Ratele grapples with in this lyrical, philosophical and poetic treatise on practising African psychology in a decolonised world view. Employing a style common in philosophy but rarely used in psychology, the book offers thoughts about the ideas, contestation, urgency and desire around a psychological praxis in Africa for Africans. While setting out a framework for researching, teaching and practicing African psychology, the book in part coaxes, in part commands and in part urges students of psychology, lecturers, researchers and therapists to reconsider and reach beyond their received notions of African psychology.

Gandhi, Smuts & Race in the British Empire Peter Baxter, 2017-04-30. Towards the end of 1906 a meeting took place between two emerging giants of the age: Mohandas K. Gandhi and General Jan Christian Smuts. United under the same empire but separated by distance and culture, Smuts was born in the Cape Colony and Gandhi in Porbandar, a duchy of the Indian province of Gujarat. Both, however, went on to study law in Britain and while developing a great admiration for the institutions of empire, each man also suffered his own particular crisis of faith. From their widely dispersed origins, Gandhi and Smuts collided over the issue of race and equality in a turbulent province of the empire, each attempting to hold the British to their stated ideals. This insightful book explores attitudes to race and belonging in an age when the English-speaking peoples straddled the globe and sought to impose on all of their subject races, basking under the radiance of Britannia, a common ideal of parity, equal opportunity and free movement.

Walt Whitman, 1940-1975 Donald D.

Kummings,1982 **South Africa** Angus Douglas,2022-12-28 In this unflinching examination of post apartheid South Africa Angus Douglas offers a provocative critique of the nation s complex racial dynamics and political landscape Drawing on personal experiences and historical analysis Douglas challenges conventional narratives about race civilization and governance in a country still grappling with its divided past Douglas takes readers on a journey through South Africa s tumultuous transition from white minority rule to African majority governance exploring the unresolved tensions that continue to shape national identity From the 2021 riots to state capture under Jacob Zuma from the legacies of figures like Jan Smuts and Steve Biko to the contemporary challenges of tribal politics and race relations the book offers an insider s perspective on a society at a crossroads Neither sparing white South Africans from criticism nor indulging in simplistic post colonial narratives Douglas argues that South Africa s future depends on honest dialogue about the nature of race civilization and the responsibilities of citizenship His central thesis that indigenous race cultures and European race cultures must find common ground while acknowledging their differences will challenge readers across the political spectrum Bold erudite and deeply personal this book provides essential context for understanding one of the world s most fascinating and troubled democracies as it struggles to define its identity in the 21st century If you enjoyed *My Traitor s Heart* *Country of My Skull* and *Born a Crime* you ll love *South Africa In the Name of the Father*

William Everson Steven Herrmann,2015-12-10 In 1991 author and Jungian psychotherapist Steven Herrmann was called by the poet shaman William Everson to collaborate on writing a book It is from that event that the subtitle of this book emerged *The Shaman s Call* Its aim is to instill in readers that if one follows one s calling from the shamanic archetype with the right attitude it could culminate in true cosmic awareness And it would interconnect the psyche with nature or what C G Jung called the Self Such awareness is made clear through the transfiguring power of American poet shamans who transmit what they are called by nature to convey that an experience of the Self is a life altering experience The calling can be transmitted by way of an animal power to a person through dreams transformative relationships in depth psychotherapy religious experiences art scientific endeavor or through the hearing reading or writing of shamanic poetry During the conversations with Everson emerged a vision of the way shamanism has been portrayed in American poetry from Herman Melville s *Moby Dick* to Walt Whitman s *Leaves of Grass* to Emily Dickinson s *The Complete Poetry* to what Everson achieved in his seminal poems *October Tragedy* *The Encounter* and *Black Hills* and in his literature course at the University of California Santa Cruz The conversations form a link between the 80 year old poet shaman and the 35 year old Jungian author Steven Herrmann who was just beginning to find his own wings as a poet The Expanded edition commemorates William Everson s birth on September 10 1912 Herrmann co organized three Centennial events to celebrate Everson s work in the fall of 2012 Part II contains *Seven Meditations* William Everson s *Basic Teachings on Vocation* a final conversation with Everson on vocatypes and Herrmann s Centennial essays and poems
