Women Philanthropy And Civil Society Women Philanthropy And Civil Society:

Women, Philanthropy, and Civil Society Kathleen D. McCarthy, 2001-07-18 This volume which grows out of a research project on women and philanthropy sponsored by the Center for the Study of Philanthropy at the City University of New York expands our understanding of female beneficence in shaping diverse political cultures As in the United States this activity often enabled women to create parallel power structures that resembled but rarely replicated the commercial and political arenas of men From nuns who managed charitable and educational institutions to political activists demanding an end of discriminatory practices against women and children many of the women whose lives are documented in these pages claimed distinctive public roles through the nonprofit sphere The authors are from Europe the United States Latin America the Middle East Egypt India and Asia Their essays cover nations on every continent representing a variety of political and religious systems The essays in this book illustrate the extent to which government the market and religion have shaped the role of female philanthropy and philanthropists in different national settings By shifting the focus from organizations to donors and volunteers they begin to assess the relative importance of each of these factors in creating opportunities for citizen participation as well as the role of female philanthropy in opening a space for women in the public sphere From publisher's description *Women, Philanthropy, and Social Change* Elayne Clift, 2005 The definitive book on women and philanthropy essential reading for scholars students donors grantees and philanthropists **Philanthropy, Patronage, and Civil Society** Thomas Adam, 2004-02-12 In *Philanthropy Patronage and Civil Society* Thomas Adam has assembled a comparative set of case studies that challenge long held and little studied assumptions about the modern development of philanthropy Histories of philanthropy have often neglected European patterns of giving and the importance of financial patronage to the emergence of modern industrialized societies It has long been assumed for example that Germany never developed civic traditions of philanthropy as in the United States In truth however 19th century German museums art galleries and social housing projects were not only privately founded and supported they were also blueprints for the creation of similar public institutions in North America The comparative method of the essays also reveals the extent to which the wealthy classes on both sides of the Atlantic defined themselves through their philanthropic activities Contributors are Thomas Adam Maria Benjamin Baader Karsten Borgmann Tobias Brinkmann Brett Fairbairn Eckhardt Fuchs David C Hammack Dieter Hoffmann Simone L ssig Margaret Eleanor Menninger and Susannah Morris **American Creed** Kathleen D. McCarthy, 2005-07 Drawing on extensive research of archives historical journals and newspapers letters and academic studies McCarthy history the Graduate Center of the State U of New York she's director of its Center for the Study of Philanthropy has written a detailed and thoughtful analysis of philanthropy in the US up to the Civil War In the process she defines the mores and trends in American society during eras marked by the struggle for abolition fights against racism and efforts to institute social justice Annotation c 2003 Book News Inc Portland OR booknews com Gender and Educational

Philanthropy A. Ginsberg, M. Gasman, 2007-03-19 This book explores the complex questions facing funding agencies and foundations as they grapple to understand and define gender equity in education It covers different approaches funders use to define gender equity target limited resources and create collaborative relationships that will ultimately make schools equitable and engaging for all

Faith and the State Amelia Fauzia, 2013-02-21 Faith and the State offers a comprehensive historical development of Islamic philanthropy zakat almsgiving sedekah donation and waqf religious endowment from the time of the Islamic monarchs through the period of Dutch colonialism and up to contemporary Indonesia It shows a rivalry between faith and the state between efforts to involve the state in managing philanthropic activities and efforts to keep them under control of Muslim civil society Philanthropy is an indication of the strength of civil society When the state was weak philanthropy developed powerfully and was used to challenge the state When the state was strong Muslim civil society tended to weaken but still found ways to use philanthropic practices in the public sphere to promote social change

Bazaar Literature Leslee Thorne-Murphy, 2022-11-21 Bazaar Literature reorients our understanding of Victorian social reform fiction by reading it in light of the copious amount of literature generated for charity bazaars Bazaars were ubiquitous during the nineteenth century part of the vibrant and massive private sector response to a rapidly industrializing society Typically organized and run by women charity bazaars were often called fancy fairs since they specialized in ladies hand crafted fancy work Indeed they were a key method women used to intervene in political social and cultural affairs Yet their conventional purpose to raise money for charity has led to their being widely overlooked and misunderstood Bazaar Literature remedies these misconceptions by demonstrating how the literature written in conjunction with bazaars shaped the social political and literary movements of its time This study draws upon a wide variety of texts printed to be sold at bazaars including literature by Robert Louis Stevenson Harriet Martineau and Elizabeth Barrett Browning alongside fictional depictions of fancy fairs by Charlotte Yonge George Eliot Frances Trollope and Anthony Trollope The book revises our understanding of the larger literary market in social reform fiction revealing a parodic self critical strain that is paradoxically braided with strident political activism and its realist sensibilities
