Women Philosophers in the Long Nineteenth Century Dalia Nassar,Kristin Gjesdal,2021 The long nineteenth century the period beginning with the French Revolution and ending with World War I was a transformative period for women philosophers in German speaking countries and contexts The period spans romanticism and idealism socialism Nietzscheanism and phenomenology philosophical movements we most often associate with Hegel Schopenhauer Kierkegaard Nietzsche and Marx but rarely with women Yet women philosophers not only contributed to these movements but also spearheaded debates about their social and political implications While today their works are less well known than those of their male contemporaries many of these women philosophers were widely read and influential in their own time Their contributions shed important new light on nineteenth century philosophy and philosophy more generally revealing the extent to which various movements which we consider distinct were joined and demonstrating the degree to which philosophy can transform lives and be transformed by lived experiences and practices In the nineteenth century women philosophers explored a wide range of philosophical topics and styles Working within and in dialogue with popular philosophical movements women philosophers helped shape philosophy s agenda and provided unique approaches to existential political aesthetic and epistemological questions Though largely deprived formal education and academic positions women thinkers developed a way of philosophizing that was accessible intuitive and activist in spirit The present volume makes available to English language readers in many cases for the first time the works of nine women philosophers with the hope of stimulating further interest in and scholarship on their works The volume includes a comprehensive introduction to women philosophers in the Nineteenth Century and introduces each philosopher and her position The translations are furnished with explanatory footnotes The volume is designed to be accessible to students as well as scholars

Women Philosophers of the Seventeenth Century Jacqueline Broad,2003-02-27 In this rich and detailed study of early modern women s thought Jacqueline Broad explores the complexity of women s responses to Cartesian philosophy and its intellectual legacy in England and Europe She examines the work of thinkers such as Mary Astell Elisabeth of Bohemia Margaret Cavendish Anne Conway and Damaris Masham who were active participants in the intellectual life of their time and were also the respected colleagues of philosophers such as Descartes Leibniz and Locke She also illuminates the continuities between early modern women s thought and the anti dualism of more recent feminist thinkers The result is a more gender balanced account of early modern thought than has hitherto been available Broad s clear and accessible exploration of this still unfamiliar area will have a strong appeal to both students and scholars in the history of philosophy women s studies and the history of ideas

Early Modern Women on Metaphysics Emily Thomas,2018-03-15 The work of women philosophers in

the early modern period has traditionally been overlooked yet their writing on topics such as reality time mind and matter holds valuable lessons for our understanding of metaphysics and its history This volume of new essays explores the work of nine key female figures Bathsua Makin Anna Maria van Schurman Elisabeth of Bohemia Margaret Cavendish Anne Conway Damaris Cudworth Masham Mary Astell Catharine Trotter Cockburn and milie Du Ch telet Investigating issues from eternity to free will and from body to natural laws the essays uncover long neglected perspectives and demonstrate their importance for philosophical debates both then and now Combining careful philosophical analysis with discussion of the intellectual and historical context of each thinker they will set the agenda for future enquiry and will appeal to scholars and students of the history of metaphysics science religion and feminism

Women Philosophers in Nineteenth-Century Britain Alison Stone,2023 Many women wrote philosophy in nineteenth century Britain and they wrote across the full range of philosophical topics Yet these important women thinkers have been left out of the philosophical canon and many of them are barely known today The aim of this book is to put them back on the map It introduces twelve women philosophers Mary Shepherd Harriet Martineau Ada Lovelace George Eliot Frances Power Cobbe Helena Blavatsky Julia Wedgwood Victoria Welby Arabella Buckley Annie Besant Vernon Lee and Constance Naden Alison Stone looks at their views on naturalism philosophy of mind evolution morality and religion and progress in history She shows how these women interacted and developed their philosophical views in conversation with one another not only with their male contemporaries The rich print and periodical culture of the period enabled these women to publish philosophy in forms accessible to a general readership despite the restrictions women faced such as having limited or no access to university education Stone explains how these women became excluded from the history of philosophy because there was a cultural shift at the end of the nineteenth century towards specialised forms of philosophical writing which depended on academic credentials that were still largely unavailable to women

Historiographies of Philosophy 1800-1950 Mogens Lærke,Leo Catana,2023-09-12 This volume discusses ways in which the history of philosophy has been written from 1800 to 1950 and how it has been informed and guided by institutional cultural political philosophical and non philosophical factors Since its inception as a discipline histories of philosophy have been written in different ways depending on author place and time they have varied according to institutional frameworks cultural settings and philosophical and non philosophical contexts At each stage of the discipline s development and evolution philosophy has constantly used the history of philosophy for its own purposes by adapting it transforming it rejecting it embracing it and rewriting it at every step of the way The chapters in this book examine the

methods deployed by historians of philosophy epistemological foundations laid down for those methods and the philosophical or non philosophical aims pursued using those methods This book will be a great resource for academics researchers and advanced students of philosophy and related fields including political philosophy and history of philosophy It was originally published as a special issue of the British Journal for the History of Philosophy
