Women Of A Certain Age The Midlife Search For Self:

Women of a Certain Age Lillian B. Rubin, 1979 The midlife search for self **Women's Sexual Experience** Martha Kirkpatrick, 2012-12-06 This book like its companion volume *Women's Sexual Development* is a potpourri of ideas not campaign literature to promote a particular point of view The editor agrees with some of her authors and strongly disagrees with others The facts are few the questions many The intent of both books is to evoke questions delay convictions invite controversy and plead for opening minds The examination and explanation of women's sexual experience has long been the province of men The is and the oughts have been hopelessly confused by the investigators or exhorters biases and limited experience as well as by the use of the male sexual experience as the model for all human sexual experience Women at long last are talking not only to each other in personal journals and letters but also in the more formal worlds of academic and scientific publications The papers in this book come from many sources Some are academic some are experiential journalistic or personal Several emphasize the lack of adequate research and data but address an issue that is just appearing on the surface of contemporary controversy and concern Many topics and sources of information are missing **Latina Issues** Antoinette Sedillo López, 2020-08-11 This book attempts to make Latina history visible and Latina voices heard It focuses solely on women not to marginalize Latina stories but to showcase them illustrating Latina perspectives on colonization gender race and class **American Lives** John A. Clausen, 1995-01-01 In the culmination of the now famous Berkeley Longitudinal Studies Clausen assesses what he has learned about the lives of 300 men and women studied since their adolescence in the early 1930s to determine why some were successful in their careers marriages and social lives while others were less so **Uncoupling** Diane Vaughan, 1990-09-05 Drawing from extensive research and in depth interviews an invaluable guide for anyone who wants to understand or prevent the collapse of a relationship How do relationships end Why does one partner suddenly become discontented with the other and why is the onset of that discontentment not so sudden after all What signals do partners send each other to indicate their doubts Why do those signals so often go unnoticed And how do people who saw themselves as part of a couple come to terms not just with absence and abandonment but with a new single identity This groundbreaking book reveals a process that begins in secret but gradually becomes public implicating not only partners but their social milieu Enlightening accessible and deeply affecting *Uncoupling* offers a startling vision of what really happens behind the surface when relationships come apart *Transforming Psyche* Barbara Weir Huber, 1999 In an accessible style and readable prose Barbara Weir Huber explores the myth of Psyche interweaving research from diverse disciplines such as current feminist and educational theories mythology literature psychology and cultural anthropology She offers an original critical reinterpretation of the myth highlighting the way it overtly portrays female experience in a patriarchal context while covertly affirming all aspects of female life *To Have and to Hold* Jessica Weiss, 2000-04-15 Drawing on interviews with American couples from the 1950s to the 1980s Weiss creates a dynamic portrait of family and

social change in the postwar era She then pairs these firsthand accounts with deft analysis of movies magazines and advice books from each decade providing an intimate look at ordinary marriages in a time of sweeping cultural change 8 halftones

Father and Child Stanley H. Cath, Alan R. Gurwitt, John M. Ross, 2013-11-26 First published in 1982 A decade ago the psychological literature contained few pieces on fathers and fathering The father was the forgotten parent Since then the focus on fatherhood has intensified with a proliferation of research studies on the subject This newfound interest in a man's importance to his children can be attributed to a variety of recent far reaching developments This study is presented under the belief that the rich data available through psychoanalysis may provide a unique window on the evolution and vicissitudes throughout life of fatherhood and fathering from the perspectives of both parent and child **Adult Development** Calvin A. Colarusso, Robert A. Nemiroff, 2013-11-22 This volume is about the normal development of adulthood as well as its vicissitudes and the contributions of such development to psychopathology The authors are psychoanalysts of great clinical skill and perceptiveness but while their focus is consistently a psychodynamic one their conceptualizations about adult developmental processes are applicable to virtually all kinds of therapy It is extraordinary how little attention has been paid to the effects of adult developmental experience on mental development Obviously mental structures are not static after the profound experiences of childhood and adolescence nor are they merely a template upon which adult experiences are processed The authors clearly demonstrate that current adult experience always adds to and interacts with existing mental structure which is itself the result of all preceding development After a first section in which they examine life cycle ideas on development from antiquity to the present they present their own work as it relates to adult experience and adult development Their hypotheses about the psychodynamic theory of adult development are particularly creative and an enormous contribution to the psychiatric literature and the clinical understanding of patients Consistent with their views that development in adulthood is an ongoing and dynamic process they elaborate their ideas that childhood development is focused primarily on the formation of psychic structure while adult development is concerned with the continued evolution of existing structure and its use *Interpreting Life* Patricia C. Burke, 2011-03-25 *Interpreting Life* depicts one Christian woman's struggle to determine her place in the home and church as the traditional roles of the 1950s gave way to the chaos created by the social movements of the 1960s and 1970s Burke's lengthy journey brought her from a state of confusion to a conscious awareness of the effects of her cohort conservative religious beliefs and close relationships on her personal and spiritual development From childhood she worshipped with a church where submission scriptures in the New Testament were taken literally and women were not allowed to participate in any public leadership roles such as leading prayers and songs teaching adults or preaching As society changed and women gradually acquired leadership roles in other organizations these church practices became more stifling preventing many conservative women from using their God-given talents Because of her marriage to a minister where she felt her family was living in a glass house it became exceedingly frustrating

to adhere to traditional religious values Throughout this process their marriage relationship was repeatedly challenged but their commitment to each other and the church helped them resolve their differences and work together to reinterpret women s roles in the church Journal writing was the technique used to make sense of the contradictions and internal conflict experienced as this Christian woman attempted to remain faithful to her religious beliefs and yet develop to her full potential Excerpts from over thirty years of writing reveals the strategies Burke employed to remain positive and productive as family and church priorities took precedent over her own dreams
