into several important themes how the coming of age genre can be used to study adulthood how displacement and international or global heritage are fundamental experiences how multidiasporic approaches foreground lived experiences and how queerness opens narratives of development to the study of adulthood as fundamentally diverse and nonconforming to social norms Quintana Vallejo shows how openness enables belonging among chosen families and perhaps most importantly freedom to disidentify And finally how contemporary authors writing for the instruction of BIPOC children and children otherwise affected by diaspora and displacement use the didactic power of the coming of age genre combined with the hybrid language of graphic narratives to teach difficult topics in accessible ways
