Women Police In A Changing Society:

Women Police in a Changing Society Mangai Natarajan, 2016-02-11 Offering a fascinating account of the development of women police over the past twenty years this book refers to the author's extended research in India to examine how the Indian experience demonstrates a valuable alternative to the Anglo American model not only for traditional societies but for women police in the West as well. With reference to the establishment in 1992 of all women units in Tamil Nadu this unique experiment proved highly successful in enhancing the confidence and professionalism of women officers and ensuring the effectiveness and efficiency of the police. At a time when policing is being rethought all over the world not only in traditional societies the Tamil Nadu practice illustrates important lessons for western countries that are finding it increasingly difficult to recruit and retain women officers. Natarajan's remarkable book is an important and original contribution to the literature on gendered policing which to date has concentrated almost exclusively on the US and British experience. **Women Police**

CHALLENGES AND STRATEGIES Dr. B. Venkata Subba Reddy & A. Jyotsna, 2016-05-01 The most common view of the relationship between social work and society seems to be the perspective that social work is an intermediary profession acting between the individual and society. In this intermediary capacity social work is somehow able to act in ways that are in the best interests of both the individual and society seeking to empower the individual and to improve society. Critics of social work reject the view of social workers as neutral and objective and see them rather as agents of social control largely acting in ways that perpetuate existing inequalities. Social workers are or can be agents and catalysts of social change as intermediaries objectively balancing the pressures of social control and social change. **Women in Changing Society**
