Women Without Men Women Without Men:

Women Without Men Donald J. Greiner, 1993 Donald J Greiner's provocative new study evaluates the fiction of ten contemporary female novelists to ask questions about gender relations in American fiction Looking closely at the reaction of female writers to what Greiner describes as a central paradigm of American literature men bonding in the wilderness in an attempt to escape women and the social restrictions they represent Greiner contends that female novelists have not only adopted the venerable model but also adapted it so that women venture into the wilderness while excluding men from the quest Greiner first shows how such contemporary white male novelists as Frederick Busch John Irving and Larry Woiwode modify the literary model established by Cooper Melville and Twain to include women in the bonding process He then argues that recent female novelists are not so eager to allow males into the wilderness or to bond with them Rather than facilitate a closing of the gender gap many contemporary female writers insist on separating the sexes Greiner frames his analysis with discussions of prominent feminist literary theorists and feminist psychologists including Carolyn Heilbrun Rachel Brownstein Nancy Chodorow Janice Raymond and Judith Kegan Gardiner From close readings of recent novels by Gloria Naylor Marianne Wiggins Joan Didion Diane Johnson Marilynne Robinson Mona Simpson Hilma Wolitzer Meg Wolitzer Joan Chase and Lisa Alther Greiner finds three significant differences in the way contemporary female novelists employ the quest plot the patriarchal text is not repudiated but revised to accommodate female characters who readily accept the traditional masculine call to the quest once outside the bounds of society female bonds do not always hold males are excluded from the bonding process To contrast the gender exclusivity favored by contemporary female writers Greiner ends his study with a discussion of bonding as portrayed by contemporary male novelist Douglas Ungar **Women without Men** Willy

Jansen, 2023-11-27 *Women Without Men* Marlene Epp, 2000-01-01 The story of thousands of Mennonite women who having lost their husbands and fathers assumed altered gender roles in their adopted homeland and created a culture of women refugees with its own distinctive historical narrative **Women without Men** Jennifer Utrata, 2015-05-21 *Women without Men* illuminates Russia's quiet revolution in family life through the lens of single motherhood Drawing on extensive ethnographic and interview data Jennifer Utrata focuses on the puzzle of how single motherhood frequently seen as a social problem in other contexts became taken for granted in the New Russia While most Russians including single mothers believe that two parent families are preferable many also contend that single motherhood is an inevitable by product of two intractable problems weak men reflected they argue in the country's widespread chronic male alcoholism and a weak state considered so because of Russia's unequal economy and poor social services Among the daily struggles to get by and get ahead single motherhood Utrata finds is seldom considered a tragedy Utrata begins by tracing the history of the cultural category of single mother from the state policies that created this category after World War II through the demographic trends that contributed to rising rates of single motherhood to the contemporary tension between the cultural ideal of the
