Mlambo, 2014-04-07 The first single volume history of Zimbabwe with detailed coverage from pre colonial times to the present this book examines Zimbabwe's pre colonial colonial and postcolonial social economic and political history and relates historical factors and trends to recent developments in the country Zimbabwe is a country with a rich history dating from the early San hunter gatherer societies The arrival of British imperial rule in 1890 impacted the country tremendously as the European rulers exploited Zimbabwe's resources giving rise to a movement of African nationalism and demands for independence This culminated in the armed conflict of the 1960s and 1970s and independence in 1980 The 1990s were marked by economic decline and the rise of opposition politics In 1999 Mugabe embarked on a violent land reform program that plunged the nation's economy into a downward spiral with political violence and human rights violations making Zimbabwe an international pariah state This book will be useful to those studying Zimbabwean history and those unfamiliar with the country's past [Voices of Zimbabwean Orphans](#) Manasa Dzirikure, Garth Allen, 2014-10-30 The voices of orphans and other vulnerable children and young people and of their carers and professional development workers are documented and analysed to both criticise the inadequacies of current social development work and to create a new alternative theory and practice of project management in Zimbabwe and southern Africa This is the first extensive and intensive empirical study of Zimbabwean orphans and other vulnerable children and young people Chronically poor children and their carers can be corrupted or silenced by management systems which fail to recognise their basic human needs Resilience in the face of such adversity is celebrated by the dominant project management ideology and practice but is a major barrier to achieve genuine

sustainable improvements in the lives of vulnerable children We propose a new person centred project management approach aimed at delivering comprehensive services for orphans which explicitly recognises the needs of orphans and other poor children to be fully socially politically and economically included within their communities and which avoids the reinforcement of power based inequalities and their unacceptable consequences The moral bankruptcy of much social development work in Zimbabwe and elsewhere in Southern Africa is described and we delineate an alternative project management policy and practice

Underdevelopment, Development and the Future of Africa Mawere, Munyaradzi, 2017-02-10 In view of the resilience of Africa's underdevelopment what do Africans make of their determined aspirations for development The continent of Africa has constantly drawn global attention most especially for both human and natural evils Underdevelopment it appears is one of the most eminent threatening evils It has plunged and promises to maintain the majority of Africa in abject poverty insecurity and vulnerability What perpetuates the ghost and gory of underdevelopment in Africa despite a proliferation of development rhetoric and initiatives How do ordinary Africans react to repeated talk and claims of development with little evidence of transformation for the better in their material circumstances This book interrogates the tenacity of underdevelopment amid calls for Africa to rise from its slumber and reclaim its position in global affairs as the mother continent of humankind It contributes to the ongoing debates on why Africa remains trapped in the clutch of underdevelopment many decades after the purported end of colonialism The book comes at a critical time in human history a time when the talk on Africa's underdevelopment is louder due to the ravages of economic downturns and dysfunctional conflicts It poses a challenge to development practitioners civil society activists statesmen economists political scientists and theorists to rethink and reconsider their role as technocrats experts and ambassadors of positive change in Africa and the world beyond

Realizing the Full Potential of Social Safety Nets in Africa

Kathleen Beegle,Aline Coudouel,Emma Monsalve,2018-07-02 Poverty remains a pervasive and complex phenomenon in Sub Saharan Africa Part of the agenda in

recent years to tackle poverty in Africa has been the launching of social safety nets programs All countries have now deployed safety net interventions as part of their core development programs The number of programs has skyrocketed since the mid 2000s though many programs remain limited in size This shift in social policy reflects the progressive evolution in the understanding of the role that social safety nets can play in the fight against poverty and vulnerability and more generally in the human capital and growth agenda Evidence on their impacts on equity resilience and opportunity is growing and makes a foundational case for investments in safety nets as a major component of national development plans For this potential to be realized however safety net programs need to be significantly scaled up Such scaling up will involve a series of technical considerations to identify the parameters tools and processes that can deliver maximum benefits to the poor and vulnerable However in addition to technical considerations and at least as importantly this report argues that a series of decisive shifts need to occur in three other critical spheres political institutional and fiscal First the political processes that shape the extent and nature of social policy need to be recognized by stimulating political appetite for safety nets choosing politically smart parameters and harnessing the political impacts of safety nets to promote their sustainability Second the anchoring of safety net programs in institutional arrangements related to the overarching policy framework for safety nets the functions of policy and coordination as well as program management and implementation is particularly important as programs expand and are increasingly implemented through national channels And third in most countries the level and predictability of resources devoted to the sector needs to increase for safety nets to reach the desired scale through increased efficiency increased volumes and new sources of financing and greater ability to effectively respond to shocks This report highlights the implications which political institutional and fiscal aspects have for the choice and design of programs Fundamentally it argues that these considerations are critical to ensure the successful scaling up of social safety nets in Africa and that ignoring them could lead to technically sound but practically impossible choices and designs **Science,**

Policy and Development in Africa R. Sooryamoorthy, 2020-09-03 An historical and empirical study of science in Africa bringing to light connections between science policy and development [The History of Africa](#) Molefi Kete

Asante, 2014-10-10 There is a paradox about Africa it remains a subject that attracts considerable attention yet rarely is there a full appreciation of its complexity African historiography has typically consisted of writing Africa for Europe instead of writing Africa for itself as itself from its own perspectives The History of Africa redresses this by letting the perspectives of Africans themselves take center stage Authoritative and comprehensive this book provides a wide ranging history of Africa from earliest prehistory to the present day using the cultural social political and economic lenses of Africa as instruments to illuminate the ordinary lives of Africans The result is a fresh survey that includes a wealth of indigenous ideas African concepts and traditional outlooks that have escaped the writing of African history in the West The new edition includes information on the Arab Spring the rise of FrancAfrica the presence of the Chinese in Africa and the birth of South Sudan

The chapters go up to the present day addressing US President Barack Obama's policies toward Africa. A new companion website provides students and scholars of Africa with access to a wealth of supporting resources for each chapter including images, video, and audio clips and links to sites for further research. This straightforward, illustrated, and factual text allows the reader to access the major developments, personalities, and events on the African continent. This groundbreaking survey is an indispensable guide to African history. **Encyclopedia of African History 3-Volume Set** KEVIN SHILLINGTON.,2005

Right to Development and Illicit Financial Flows from Africa Serges Djoyou Kamga, Gerard Emmanuel Kamdem Kamga, Arnold Kwesiga, 2024-02-15 Gerard Emmanuel Kamdem Kamga, Serges Djoyou Kamga, and Arnold Kwesiga explore a relatively new phenomenon, namely, referred to as illicit financial flows that aim to impoverish the African continent and prevent its economic development. There is a direct relationship between illicit financial flows and failed initiatives to realize the right to development on the continent. For instance, in 2016, Africa received 41 billion towards public development while 50 billion left the continent through illicit financial flows. The gap between recent economic achievements on the continent and its state of generalized underdevelopment, coupled with rampant poverty, corruption, prolonged economic crisis, and political instabilities, signals an issue with resource allocations. The systematic theft of resources by multinational corporations and criminal networks is a hard blow to the idea of people-driven development in line with the Pan African vision of an integrated, prosperous, and peaceful Africa proclaimed by Agenda 2063. *Right to Development and Illicit Financial Flows from Africa: Dynamics, Perspectives, and Prospects* provides insights into the dynamics and perspectives on illicit financial flows and its dire impacts on the right to development and development initiatives across the continent.

Non-governmental Organizations (NGOs) and Sustainable Development in Sub-Saharan Africa Robert A. Dibia, 2008-01-01. Written to provide guidance for civil society organizations and their client groups, this book examines the role of NGOs in the development processes on the African continent. It raises questions about the influence of funding agencies over the NGOs they support and explores the challenges NGOs face. The book argues that increased knowledge and cooperation on all parts is essential to achieve sustainable development. This book also concludes that sustainable development activities are not beneficial to every community in Africa. Taking into consideration globalization and studies of sub-Saharan countries, this book concludes that new models of leadership are necessary for the success of Africa, and NGOs are a vital part of achieving that development. **Conflicts in the Middle East and Africa** Moosa Elayah, Bakeel

Alzandani, 2024-03-21. This book explores the multifaceted dynamics between state and non-state actors in public policy during and after conflict in the Middle East and Africa. It offers case studies and policy-relevant ideas for conflict-affected areas to move forward in a more sustainable manner. Following the Arab Spring revolutions, civil wars have plagued the Middle East and North Africa region, along with other countries in Africa. The task of rebuilding peace and institutionalizing stability in conflict-affected countries or fragile states emerging from conflict is a daunting, uncertain, and context-specific

task Yet focusing on understanding conflicts in the Middle East and Africa offers an important view of the role of non state actors during conflicts These regions feature the highest numbers of inter and intra state conflicts and the governments are more often contested than in the rest of the world The volume proposes different cases addressing the fundamental challenge of inclusion and cohesion of nonstate actors during conflicts By providing a comprehensive exploration of diverse perspectives it empowers readers to engage with the pressing issues facing these regions This is a useful resource for students and researchers in public policy and governance studies development studies and NGOs and Middle East and African Studies
