The Textual Condition Jerome J. McGann, 1991-10-27 Over the past decade literary critic and editor Jerome McGann has developed a theory of textuality based in writing and production rather than in reading and interpretation These new essays extend his investigations of the instability of the physical text McGann shows how every text enters the world under socio historical conditions that set the stage for a ceaseless process of textual development and mutation Arguing that textuality is a matter of inscription and articulation he explores texts as material and social phenomena as particular kinds of acts McGann links his study to contextual and institutional studies of literary works as they are generated over time by authors editors typographers book designers marketing planners and other publishing agents This enables him to examine issues of textual stability and instability in the arenas of textual production and reproduction Drawing on literary examples from the past two centuries including works by Byron Blake Morris Yeats Joyce and especially Pound McGann applies his theory to key problems facing anyone who studies texts and textuality

The Textual Condition Maurice Blackman, Frances Muecke, Margaret Sankey, 1995 **The Textual Condition of Nineteenth-Century Literature** Josephine Guy, Ian Small, 2012-03-12 In this important new book Guy and Small develop a new account of literary creativity in the late nineteenth century one that combines concepts generated by text theorists concerning the embodied nature of textuality with the empirical insights of text editors and book historians Through these developments which the authors term the textual turn this study examines the textual condition of nineteenth century literature The authors explore works by Dickens Wilde Hardy Yeats Swinburne FitzGerald Pater Arnold Pinero and Shaw connecting questions about what a work textually is with questions about why we read it and how we value it The study asks whether the textual turn places us in a stronger position to analyze the value of a nineteenth century text not for readers of the nineteenth century but of the twenty first The authors argue that this issue of value is central to their discipline **The Authentic Paul** Gregory Fewster, 2025-04-01 Written in the first century and compiled in the New Testament the letters of

the Apostle Paul have served as a reservoir of divine authority for Christians Yet from the time of their writing experts have claimed that some letters were altered or forged Even after centuries and generations of critical scholarship an authentic book of Paul s letters lacks consensus The Authentic Paul traces the efforts of scholars from antiquity to the modern period who endeavoured to make an authoritative book of Paul s letters free from textual variation and forgery Engaging recent trends in the study of religion and book history it challenges one of philologists fundamental assumptions that authenticity is an inherent property of literature that can be recovered or destroyed Gregory Fewster draws the philology of Paul in both its ancient and modern forms into the wider world of critical philology and its dynamic traditions of practice Through analyses of ancient papyri and literary texts early print journals and critical editions he shows how the value of authenticity is entangled with the ways that scholars assess Paul s legitimacy and their own amid dense literary landscapes and intellectual debates The Authentic Paul illustrates in vibrant detail what it means in a world full of texts to make the letters of Paul authentic and why practices of authentication are always culturally determined

other Renaissance texts but this is the first overall survey of the current state of the field The essays have been commissioned to honour Professor Richard Proudfoot Senior General Editor of the Arden Shakespeare and an internationally recognised authority in the field of Shakespeare textual scholarship who retired from King s College London in 1999 after 35 years This is a well planned focused and co ordinated volume makes a significant contribution to Shakespeare studies The contributors are a formidable and global group of scholars representing both traditional and contemporary viewpoints They include a number of Arden editors past and present as well as scholars who have edited texts for the main competitors

Modern Criticism and Theory Nigel Wood,David Lodge,2014-06-11 This third edition of Modern Criticism and Theory represents a major expansion on its previous incarnations with some twenty five new pieces or essays included This expansion has two principal purposes Firstly in keeping with the collection s aim to reflect contemporary preoccupations the reader has expanded forward to include such newly emergent considerations as ecocriticism and post theory Secondly with the aim of presenting as broad an account of modern theory as possible the reader expands backwards to to take in exemplary pieces by formative writers and thinkers of the late nineteenth and early twentieth centuries such as Marx Freud and Virginia Woolf This radical expansion of content is prefaced by a wide ranging introduction which provides a rationale for the collection and demonstrates how connections can be made between competing theories and critical schools The purpose of the collection remains that of introducing the reader to the guiding concepts of contemporary literary and cultural debate It does so by presenting substantial extracts from seminal thinkers and surrounding them with the contextual materials necessary to a full understanding Each selection has a headnote which gives biographical details of the author and provides suggestions for further reading and footnotes that help explain difficult references The collection is ordered both historically and thematically and readers are encouraged to draw for themselves connections between essays and theories Modern Criticism and Theory has long been regarded as a necessary collection Now revised for the twenty first century it goes further and provides students and the general reader with a wide ranging survey of the complex landscape of modern theory and a critical assessment of the way we think and live in the world today
