The Psychology of Counter-Terrorism Andrew Silke,2010-10-26 This work firstly aims to provide balanced and objective insight into the psychology of terrorists what their motivations are what keeps them involved in terrorist groups and what eventually forces most to end their active involvement in terrorism Secondly the contributors focus on the challenging issue of how to respond to terrorism These chapters provide information for those concerned with short term tactical problems e g interviewing as well as those looking towards the more long term strategic questions of bringing an entire terrorist campaign to an end Ultimately the individuals involved in terrorism require a more complex response from society than simply a quest for their apprehension Believing inaccurate and misleading characterizations leads inevitably to damaging policies and deficient outcomes with campaigns of violence being needlessly prolonged It is from this perspective that the concern arises with how researchers and the policy makers guided by them perceive the psychology of terrorists and of terrorism **A**

The Terrorism News Beat Aaron M. Hoffman, 2025-03-19 Critics of terrorism news coverage often describe it as a sensationalized and intimidating area of reporting However this characterization offers a misleading guide to the coverage of terrorist threats and attacks counterterrorism and community responses to terrorism that appears in U S newspapers Counterterrorism not terrorist threats or attacks is the most reported on subject in newspapers such as the New York Times and Wall Street Journal Rather than focusing on accounts of terrorist attacks militarized counterterrorism or counterterrorism failures journalists more often cover counterterrorism successes criminal justice and diplomatic or community responses to terrorism The Terrorism News Beat engages thinking about terrorism and the news media from the

fields of political science communication criminology economics and sociology using multimethod research involving more than 2 500 newspaper articles published between 1997 and 2018 Chapters analyze the terrorism news beat s subject matter language and coverage of the Oklahoma City Bombing Olympic Park bombing 9 11 attacks DC Sniper case and Dallas Police shooting When it comes to language use Hoffman finds that rather than giving into the temptation to convey the news in lurid detail journalists are minimalists The language used to depict events on the terrorism beat is typically moderate and extreme words like torture appear only as necessary The Terrorism News Beat shows that contrary to claims of sensationalism the tone of terrorism coverage becomes even more sober during terrorism crises than it is during non crisis periods and meets journalistic standards for quality
