The Undefeated Mind On The Science Of Constructing An Indestructible Self:

The Undefeated Mind Alex Lickerman, 2012-11-06 Legions of self help authors rightly urge personal development as the key to happiness but they typically fail to focus on its most important objective hardiness Though that which doesn't kill us can make us stronger as Nietzsche tells us few authors today offer any insight into just how to springboard from adversity to strength It doesn't just happen automatically and it takes practice New scientific research suggests that resilience isn't something with which only a fortunate few of us have been born but rather something we can all take specific action to develop To build strength out of adversity we need a catalyst What we need according to Dr Alex Lickerman is wisdom wisdom that adversity has the potential to teach us Lickerman's underlying premise is that our ability to control what happens to us in life may be limited but we have the ability to establish a life state to surmount the suffering life brings us The Undefeated Mind distills the wisdom we need to create true resilience into nine core principles including A new definition of victory and its relevance to happiness The concept of the changing of poison into medicine A way to view prayer as a vow we make to ourselves A method of setting expectations that enhances our ability to endure disappointment and minimizes the likelihood of quitting An approach to taking personal responsibility and moral action that enhances resilience A process to managing pain both physical and emotional that enables us to push through obstacles that might otherwise prevent us from attaining our goals A method of leveraging our relationships with others that helps us manifest our strongest selves Through stories of patients who have used these principles to overcome suffering caused by unemployment unwanted weight gain addiction rejection chronic pain retirement illness loss and even death Dr Lickerman shows how we too can make these principles function within our own lives enabling us to develop for ourselves the resilience we need to achieve indestructible happiness At its core The Undefeated Mind urges us to stop hoping for easy lives and focus instead on cultivating the inner strength we need to enjoy the difficult lives we all have

possessions or even on our experiences but rather on the beliefs we have that shape our most fundamental thinking These beliefs they argue create ten internal life conditions or worlds through which we continuously cycle and that determine how happy we are able to be Drawing on the latest scientific research as well as Buddhist philosophy Lickerman and ElDifrawi argue that once we learn to embrace a correct understanding of happiness we can free ourselves from the suffering the core delusions cause us and enjoy the kind of happiness we all want the kind found in the highest of the Ten Worlds the world of Enlightenment *Act or Accept* Ashok Bhandari,2018-05-21 Why does one have to be happy I struggled for decades in an unending roller coaster ride only to realise the futility of it all Fortunately for me I dropped out of the chase before it descended into addiction This is my story in which I explore reasons assumptions beliefs and causes that pull one down and share insights that help cross the mire and delete accumulated instances Drain the swamp What emerges is an elegant a very simple path that every ordinary person like me can explore On the way a reader will discover a unique set of thoughts tailored to her or his individuality culture beliefs and faith A fresh outlook that stops future incidences and even transcends the rigmarole altogether An actionable approach that is refreshingly different yet powerful enough to hugely impact Welcome to a pivot in thoughts words deeds and immerse yourself in a voyage to find a new you Get set for a Take 2 A preview question Is being not unhappy same as being happy Use Your Words Catherine Deveny,2016-04-30 Want to write Got a memoir novel screenplay or blog in your back drawer Need to get unstuck This is the magic pill you've been looking for In Use Your Words writer and comedian Catherine Deveny reveals the secrets that have made her Gunnas Writing Masterclasses sell out successes around the country With humour and passion she explains the struggles all writers face and reveals how to overcome them Whether you're already published or just starting out writing for others or purely for self expression Use Your Words has the tips tricks techniques and honest truths to get you writing You'll learn how creativity is like a vending machine how writing is like a magnet and how not to die with your light inside you Wait no longer smash through procrastination and fear and get those words on the page Everyone has a book in them Before you write yours however read this It's brilliant The world will thank you Clare Bowditch Finally the truth about writing Buy this book if you want to get the job done Chrissie Swan The most readable book on writing ever written Dee Madigan As practical and profane as the woman who wrote it Benjamin Law Catherine Deveny's no nonsense attitude and comedic genius make learning fun If you've always wanted to write but never thought you could banish those thoughts right now Clementine Ford An insightful funny honest how to go do firecracker up you bible for the emerging and established author alike Buy it read it and WRITE Maxine Beneba Clarke One of the big risks of motivational books such as this is they can lapse into cheerleader cliches Excellent instincts allow Deveny to avoid this pitfall Her views on feedback are worth pinning up behind your desk The Age Farmers' Review ,1905
