Understanding The Global Community 2013 01 1:

Understanding China Chandran Nair, Jorgen Randers, Jinfeng Zhou, Frederick Charles Dube, 2025-11-24 This book offers a long overdue balanced and objective perspective on China's transformation from a constrained economy in the late 1970s to a leading global power in 2024. It examines the political motivations behind China's rise through a detailed contextualisation of the reforms and opening up policies of Deng Xiaoping, its governing principles and the implications of its ascent for the world. For readers interested in China's evolution over the past 50 years, this book is a valuable resource for policymakers, business professionals, academics, and students of contemporary Chinese studies, international relations, global political economy, and governance.

The Global Community Yearbook of International Law and Jurisprudence 2017 Giuliana Ziccardi Capaldo, 2018-10-19 The Global Community Yearbook is a one-stop resource for all researchers studying international law generally or international tribunals specifically. The Yearbook has established itself as an authoritative source of reference on global legal issues and international jurisprudence. It includes analysis of the most significant global trends in a way that allows readers to monitor the development of the global legal order from several perspectives. The Global Community Yearbook publishes annually in a volume of carefully chosen primary source material and corresponding expert commentary. The general editor, Professor Giuliana Ziccardi Capaldo, employs her vast expertise in international law to select excerpts from important court opinions and to choose experts from around the world to contribute essay guides which illuminate those cases. Although the main focus is recent case law from the major international tribunals and regional courts, the first four parts of each year's edition feature expert articles by renowned scholars who address broader themes in current and future developments in international law and global policy themes that appear throughout the case law of the many courts covered by the series as a whole. The Global Community Yearbook has thus become not just an indispensable window to recent jurisprudence; the series now also serves to prepare researchers for the issues facing emerging global law. The 2017 edition of The Global Community Yearbook both updates readers on the important work of long-standing international tribunals and introduces readers to more novel topics in international law. The Yearbook has established itself as an authoritative resource for research and guidance on the jurisprudence of both UN-based tribunals and regional courts. The 2017 edition continues to provide expert coverage of the Court of Justice of the European Union and diverse tribunals from the International Court of Justice (ICJ) to criminal tribunals such as the International Criminal Court (ICC) and the Tribunals for the Former Yugoslavia and Rwanda, to economically based tribunals such as ICSID and the WTO Dispute Resolution panel. This edition contains original research articles on the development and analysis of the concept of global law and the views of the global law theorists. It also includes expert introductory essays by prominent scholars in the realm of international law on topics as diverse and current as the erosion of the postwar liberal global order by national populism and the accompanying disorder in global politics, a bifurcated global nuclear order due to the Nuclear Non-proliferation Treaty.

and the Nuclear Weapons Prohibition Treaty and the expansion of the principle of no impunity and its application to serious violations of social and economic rights New to the 2017 edition the author of the article in Recent Lines of International Thought will now talk about their own work as a Scholar Judge In addition this edition memorializes the late M Cherif Baasiouni The Yearbook provides students scholars and practitioners alike a valuable combination of expert discussion and direct quotes from the court opinions to which that discussion relates as well as an annual overview of the process of cross fertilization between international courts and tribunals and a section focusing on the thought of leading international law scholars on the subject of the globalization This publication can also be purchased on a standing order basis

essential part of the collegiate experience providing students with access to knowledge and literature. However, as virtual services and online learning become more prominent within collegiate environments, the ways students conduct research and access resources has been altered. Innovative Solutions for Building Community in Academic Libraries examines new methods librarians use to engage both on campus and online users in library services, taking into account the significant impacts of online learning on students' interaction with library resources. Focusing on various outreach practices, techniques of literacy instruction, and the utilization of library spaces, this research-supported book is a pivotal reference source for distance educators, program planners, academics, and library professionals interested in new ways to attract users to library services. Social Sustainability, Climate Resilience and Community-Based Urban Development Cathy Baldwin, Robin King, 2018-05-15 Urban communities around the world face increased stress from natural disasters linked to climate change and other urban pressures. They need to grow rapidly stronger in order to cope, adapt, and flourish. Strong social networks and social cohesion can be more important for a community's resilience than the actual physical structures of a city. But how can urban planning and design support these critical collective social strengths? This book offers blue sky thinking from the applied social and behavioural sciences and urban planning. It looks at case studies from 14 countries around the world, including India, the USA, South Africa, Indonesia, the UK, and New Zealand, focusing on initiatives for housing, public space, and transport stops, and also natural disasters such as flooding and earthquakes. Building on these insights, the authors propose a gold standard: a socially aware planning process and policy recommendation for those drawing up city sustainability and climate change resilience strategies and urban developers looking to build climate-proof infrastructure and spaces. This book will be of great interest to students and scholars of urban studies, resilience studies, and climate change policy, as well as policymakers and practitioners working in related fields. Understanding Global Cultures Martin J. Gannon, Rajnandini Pillai, 2015-02-16 In the fully updated Sixth Edition of Understanding Global Cultures: Metaphorical Journeys Through 34 Nations, Clusters of Nations, Continents, and Diversity, authors Martin J. Gannon and Rajnandini Pillai present the cultural metaphor as a method for understanding the cultural mindsets of individual nations, clusters of nations, continents, and diversity in each nation. A cultural metaphor is any activity, phenomenon, or institution that members of a given culture consider important and with which they identify emotionally and/or cognitively, such as the Japanese garden and American football. This cultural metaphoric approach identifies three to eight unique or distinctive features of each cultural metaphor and then discusses 34 national cultures in terms of these features. The book demonstrates how metaphors are guidelines to help outsiders quickly understand what members of a culture consider important. Essentials of Human Behavior Elizabeth D. Hutchison, Leanne Wood Charlesworth, 2020-11-06 Essentials of Human Behavior combines Elizabeth D. Hutchison's two best-selling Dimensions of Human Behavior volumes into a single streamlined volume for understanding human behavior. The text presents a multidimensional framework integrating person, environment, and time to show students the dynamic
