Understanding Earth Grotzinger Lab Manual:

Understanding Earth John Grotzinger, Thomas H. Jordan, 2019-11-26 Geology is everywhere in our daily lives We are surrounded by materials and resources extracted from the Earth our climate is changing at alarming rates and hazards due to Earth's processes are leading to major catastrophes We will be reliant upon a population of informed citizens to make and vote for policies that protect our Earth and change that will keep our planet habitable Therefore understanding our Earth has never been more important Understanding Earth leads the way by fully integrating the study of climate science into the core introductory geology curriculum Through strategic placement of the climate science chapters at the beginning of the geomorphology content we offer a text that places our changing climate as a key force shaping the rest of our discussion on Earth's surficial processes
