

Understanding Environmental Policy Processes

Environmental policy processes are complex and multifaceted, involving various actors, discourses, and often-contested scientific and political interests. This comprehensive guide will explore different theoretical frameworks and analytical tools to understand how environmental policies are formulated, contested, and implemented.

H1: Key Theoretical Frameworks

H2: Rational and Linear Models of Policy

- **Linear Model:** This model assumes a rational, sequential process of policy-making, where decisions are followed by implementation.
- **Challenges:** Real-world policy processes often deviate from this model, showing non-linear and iterative characteristics.

H2: Epistemic Communities

- **Definition:** Networks of professionals with recognized expertise and competence in a particular domain.
- **Function:** They influence policy by framing problems, promoting solutions, and guiding decision-makers through complex issues.
- **Example:** Environmental cooperation over the Mediterranean pollution and the ozone layer .

H2: Actor-Network Theory

- **Concept:** Focuses on the role of both human and non-human actors (actants) in creating and stabilizing networks that produce knowledge and influence policy.

Understanding Environmental Policy

Convergence Helge Jörgens, Andrea Lenschow, Duncan Liefferink, 2014-01-09 Over recent decades national environmental policies have become increasingly alike This book analyses the driving forces of this process of policy convergence providing an in depth empirical analysis of the international forces at work It does so by investigating how four countries France Hungary Mexico and the Netherlands have shaped their domestic environmental policies in the context of international institutions and relationships while taking into account various domestic factors and national conditions Employing a qualitative approach the authors seek to deepen understanding of the processes and mechanisms through which international forces such as legal harmonisation institutionalised information flows and global trade dynamics affect domestic environmental policy change Together with its companion volume *Environmental Policy Convergence in Europe The Impact of Trade and International Institutions* 2008 this book provides a showcase of mixed methodologies combining quantitative and qualitative approaches in an innovative way

Understanding Environmental Policy After Covid-19 Emre Cengiz, Ömer Ugur, 2021-12-13 Environmental and climate problems have gained a global dimension and constitute one of the important issues of world politics and economies The necessity of all states to act together on these problems which threaten the present and future of humanity and find the solution has revealed the global character of the process The interdependence created by economic development and environmental problems brought a new meaning and dimension to both national and international politics Especially the recent pandemic has made the global nature of environmental issues more understandable In this context it seems necessary to create a work that deals with current debates in the field which will help identify the problems in the field and find solutions to them

US Environmental Policy in Action Sara R. Rinfret, Michelle C. Pautz, 2023-02-19 US Environmental Policy in Action provides a comprehensive look at the creation implementation and evaluation of environmental policy which is of particular importance in our current era of congressional gridlock partisanship and polarization and escalating debates about federal state relations With a continued focus on the front lines of environmental policy Rinfret and Pautz take into account the major changes in the practice of US environmental policy during the Trump and Biden administrations Providing real life examples of how environmental policy works rather than solely discussing how congressional action produces environmental laws this third edition of US Environmental Policy in Action offers a practical approach to understanding contemporary American environmental policy
