Re Search through Architecture ICAR 2015 proposes a debate of the subject defining some new principles of nowadays
architectural design In the XXI st century in searching of a style after Postmodernism it is considered that new architecture
based on algorithms and parameters may offer new senses of space continuity and legibility In opposite the contextualist and
phenomenologist movements consider this approach as a formal and fragile tendency culturally un sustained and which won
t prove its consistence in time as utopist and futurist did Topics like new avant garde movement stylistic searching
anachronistically architecture space continuities and correspondences lived architecture or experimental manifesto projects
the evolving of geometries urban continuities or classical defragmentation functional zoning social impact scenarios space
formalization aesthetic and symbolic design values authentically or new built archaeology sustainable design etc will be

Global Indian Diaspora Brinsley Samaroo, Primnath Gooptar, Kumar Mahabir, 2021-11-22 Indian Diaspora World Convention was held in Trinidad in 2017 to commemorate the 1917 decision of the Indian Legislature to end further recruitment of Indians for overseas indentured service This part is volume I of the two volume work Global Indian Diaspora It is a significant addition to current research on India s cultural expansion into the Atlantic and Pacific worlds In this volume the former indentured Empire speaks back giving its side of the narrative not in an

apologetic accounting but rather on the positive side in diverse ways The Girmitiyas lit agreement signers maintained their core values using these to gain anchorage in the new places At the same time they prudently took advantage of agencies such as the Canadian Mission to gain admission to the wider westernized community They maintained ties with India through frequent visits of Indian scholars and missionaries They equally preserved their cultural observances derived from Indian antiquity adding diversity to the colonial society All of these elements combine to give a refreshing perspective on the globalization of the world which started long before all the time Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka

Religion, Pluralism, and Reconciling Difference

W. Cole Durham, Jr., Donlu D. Thayer, 2018-11-22 We live in an increasingly pluralized world This sociological reality has become the irreversible destiny of humankind Even once religiously homogeneous societies are becoming increasingly diverse Religious freedom is modernity's most profound if sometimes forgotten answer to the resulting social pressures but the tide of pluralization threatens to overwhelm that freedom's stabilizing force Religion Pluralism and Reconciling Difference is aimed at exploring differing ways of grappling with the resulting tensions and then asking will the tensions ultimately yield poisonous polarization that erodes all hope of meaningful community Or can the tradition and the institutions protecting freedom of religion or belief be developed and applied in ways that still foster productive interactions stability and peace This volume brings together vital and thoughtful contributions treating aspects of these mounting worldwide tensions concerning the relationship between religious diversity and social harmony The first section explores controversies surrounding religious pluralism from different starting points including religious political and legal standpoints The second section examines different geographical perspectives on pluralism Experts from North and South America Europe Africa and the Middle East address these issues and suggest not only how social institutions can reduce tensions but also how religious pluralism itself can bolster needed civil society

Universities as Living Labs for Sustainable Development Walter Leal Filho, Amanda Lange Salvia, Rudi W. Pretorius, Luciana Londero Brandli, Evangelos Manolas, Fatima Alves, Ulisses Azeiteiro, Judy Rogers, Chris Shiel, Arminda Do Paco, 2019-04-30

This book fills an important gap in the literature and presents contributions from scientists and researchers working in the field of sustainable development who have engaged in dynamic approaches to implementing sustainability in higher education It is widely known that universities are key players in terms of the implementation and further development of sustainability with some having the potential of acting as living labs in this rapidly growing field Yet there are virtually no publications that explore the living labs concept as it relates to sustainability and in an integrated manner The aims of this book which is an outcome of the 4th World Symposium on Sustainable Development at Universities WSSD U 2018 held in Malaysia in 2018 are as follows i to document the experiences of universities from all around the world in curriculum innovation research activities and practical projects as they relate to sustainable development at the university level ii to disseminate information ideas and experiences acquired in the execution

of projects including successful initiatives and good practice iii to introduce and discuss methodological approaches and projects that seek to integrate the topic of sustainable development in the curricula of universities and iv to promote the scalability of existing and future models from universities as living labs for sustainable development The papers are innovative cross cutting and many reflect practice based experiences some of which may be replicable elsewhere Also this book prepared by the Inter University Sustainable Development Research Programme IUSDRP and the World Sustainable Development Research and Transfer Centre WSD RTC reinforces the role played by universities as living labs for sustainable development

Strategies for Facilitating Inclusive Campuses in Higher Education Jaimie Hoffman, Patrick Blessinger, Mandla Makhanya, 2019-07-25 This volume provides educators with a global understanding of the successes and challenges associated with facilitating inclusive campuses in higher education amidst the growing diversity of students by providing evidence based strategies and ideas for implementing equity and inclusion at higher education institutions around the world

Corrupted Jonathan D Jansen, 2023-02 Through investigatory reports and interviews Jonathan Jansen reveals the structural conditions for chronic dysfunction in a sample of South African universities He reveals the political economy at work and the intense competition for resources on campuses He also provides interventions for these fragile institutions Why do some universities seem to be in a constant state of turmoil and dysfunction Jonathan Jansen explores the root causes of chronic instability in a sample of South African universities Through scrutiny of investigatory reports and interviews with more than 100 university managers and government officials Jansen finds that at the heart of the dysfunction in universities is an intense and sometimes deadly competition for resources especially on campuses located in impoverished communities It is not the lack of institutional resources but their concentration in a university that draws a mix of corrupt actors from local politicians and taxi operators to members of council and management into a never ending run on the material such as money for infrastructure and symbolic namely graduation certificates for sale assets of these institutions Jansen argues that the problem won't be solved through investments in capacity building alone because the combination of institutional capacity and institutional integrity contributes to serial instability in universities Jansen makes an important intervention to understanding the root causes and offers interventions to produce stabilities such as the depoliticisation of university councils and appointing academics of integrity and capacity in the management and leadership of these fragile institutions This groundbreaking and long overdue study will offer a promising way forward for universities to better serve their communities and the country more broadly

Circular Economy for Buildings and Infrastructure Jian Zuo, Liyin Shen, Ruidong Chang, 2024-05-03 This edited volume covers theoretical and practical aspects

of circular economy in building development offering chapters dealing with topics such as material design affordability of housing development waste management and recycling smart metering and more A particular focus is placed on various stakeholders points of view The book s chapters are co developed and contributed by multidisciplinary teams including both academics and industry practitioners The case study oriented approach taken here helps to facilitate the reader s understanding of how building sustainability can be achieved in the context of circular economy The building industry has significant environmental social and economic impacts As one of the biggest energy consumers and carbon emitters building sustainability has attracted wide attention globally Building projects and their associated activities consume a large amount of energy natural resources and water while producing a large proportion of wastes throughout their lifecycles The traditional linear approach of make use and dispose has been heavily criticized whilst the circular approach has gained momentum Indeed circular economy has emerged as one of key principles to manage sustainability related issues by means of focusing on the circularity of resources as well as the cost implications
