Designing the Exterior Wall Linda Brock, 2015-11-17 By presenting the basics of building science along with a prescribed set of details Designing the Exterior Wall helps you understand why buildings fail and how they can be made more durable through design Author Linda Brock connects the science and aesthetics of building envelopes through the examination of a variety of construction and cladding types She features details from real world projects in a variety of climates successful and unsuccessful case studies and checklists you can use on your own projects Helps you reduce your liability by showing why building envelopes fail and how they can be designed to endure Moves from theory to actual construction by including hundreds of building envelope details from a broad array of projects and climates Integrates

numerous contemporary case studies including Frank Gehry's Experiential Music Center in Seattle thin skins Renzo Piano's Rue de Meaux housing in Paris terra cotta cladding and Mario Botta's San Francisco Museum of Modern Art prefabricated brick panels *Designing the Exterior Wall* is a must have book whether you're an architect or a student Order your copy today

The Ecologies of the Building Envelope Alejandro Zaera-Polo, Jeffrey Anderson, 2021-05-11 The Ecologies of the Envelope theorizes the building envelope as a literal embodiment of the social political technological and economic contingencies which have become embedded within it over the last century analyzing the historical lineages heroes and villains that helped define the complex material ecologies we see within the envelope today While the facade is one of the most thoroughly theorized elements of architecture it is also one of the most questioned since the end of the 19th century Within the discipline of architecture the traditional understanding of the facade focuses primarily on semiotic and compositional operations such as proportional laws and linguistic codes which are deployed on the building's surface In contrast to this our material and environmental theory of the envelope proposes that the exponential development of building technologies since the mid 19th century coupled with new techniques of management and regulation have diminished the compositional and ornamental capacities of the envelope in favor of material quantitative and technical performances Rather than producing a stylistic analysis of the facade we investigate the historical lineages of the performances components assembly types and material entanglements that constitute the contemporary building envelope **Architectonics and**

Parametric Thinking Frank Jacobus, Angie Carpenter, Rachel Smith Loerts, Antonello Di Nunzio, Francesco Bedeschi, 2023-07-12 This book is an approachable guide for students and professionals to learn parametric modeling through the lens of architectonics allowing readers to pair fundamental ideas about architecture with parametric thinking Architectonics and Parametric Thinking begins by clearly positioning the potentials of parametric design through a series of chapters written by leaders in their respective industries This helps to situate the vast potential of parametric softwares allowing the reader to understand the full range of what is made possible by working computationally Following this theoretical introduction the book presents a manual that walks readers through the step by step construction of parametric modeling scripts built through an architectonic lens using clear compelling diagrams Each of these diagrams provide textual accompaniment that describes how each new portion of the script is transforming the algorithm as a whole as well as diagrams that show the physical transformation that is taking place as a result of the script's evolution Parametric modeling is radically transforming the design disciplines and will become the primary way designers generate new products moving forward Written and expertly designed for architecture students and professionals this book provides an interactive approach to teaching the basics of parametric thinking in relation to architecture and design *Science and Technology of Building Seals, Sealants, Glazing and Waterproofing* Michael A. Lacasse, 1996 [Pelli Clarke Pelli Architects](#) Michael C. Crosbie, 2013-10-25 Pelli Clarke Pelli founded in 1977 by Cesar Pelli is an architectural office of worldwide renown They are

known in particular for their elegant and technically advanced tower designs These are usually characterized by taut seamless envelopes without exposed profiles their visual structure is achieved by subtly staggered forms or variations in the color or materiality of the fa ade glazing The unusual offi ce structure of Pelli Clarke Pelli informs the work an almost craft like perception of architectural design and a close personal relation with the client are typical for their approach A model making workshop within the offi ce helps to fi nd the appropriate form Many projects also fulfi l urbanistic roles They create urban spaces or act as iconic landmarks within the city fabric The publication encompasses a selection of works from the past eight years Amongst the documented projects are Bloomberg Tower in New York Minneapolis Central Library Transbay Transit Center in San Francisco National Museum of Art in Osaka Xiao Bai Lo Tower in Tianjin and Torre Cajasol in Sevilla
