Which Direction Ireland? Proceedings of the 2006 ACIS Mid-Atlantic Regional Conference Donald McNamara, 2009-10-02

Ireland is going changes so rapidly and so dramatically that it has left many people both in Ireland and abroad wondering where it is headed next as well as leaving some people wondering where it actually came from Which direction Ireland probes a variety of currents and concepts at play in Ireland examining geographical historical social political and literary changes that have taken place in both Ireland and Irish America It offers cogent insight into those changes and and well founded projections about the future While examining the question Which Direction Ireland provides encouragement for those who want to make the journey with enthusiasm as well as curiosity The Oxford History of British and Irish Catholicism, Volume III Liam Chambers, 2023-09-01 The third volume of The Oxford History of British and Irish Catholicism examines the period from the defeat of the Jacobite army at the battle of Culloden in 1746 to the enactment of Catholic emancipation in 1829 The first part of the volume offers a chronological overview tracing the decline of Jacobitism the easing of penal legislation which targeted Catholics the complex impact of the French Revolution the debates about the place of Catholics in the post Union state and following the mass mobilisation of Irish Catholics the passage of emancipation The second part of the volume shows that this political history can only be properly understood with reference to the broader transformations that occurred in the later eighteenth and early nineteenth centuries The period witnessed the expansion of Catholic infrastructure pastoral structures chapel building elementary education and finances and changes in Catholic practice for example in liturgy and devotion The growing infrastructure and more public profession of Catholicism occurred in a society where anti Catholicism remained a force but the volume also addresses the accommodations and interactions with non Catholics that attended daily life Crucially the transformations of this period were international as well as national The volume examines the British and Irish convents colleges friaries and monasteries on the continent especially during the events of the 1790s when many institutions closed and successor or new ones emerged at home The international dimensions of British and Irish Catholicism extended beyond Europe too as the British Empire expanded globally and attention is given to the involvement of British and Irish Catholics in imperial expansion This volume addresses the literary intellectual and cultural expressions of Catholicism in Britain and Ireland Catholics produced a rich literature in English Irish Scots Gaelic and Welsh although the volume shows the disparities in provision They also engaged with and participated in the Catholic Enlightenment particularly as they grappled with the challenges of accommodation to a Protestant constitution This also had consequences for the public expression of Catholicism and the volume concludes by exploring the shifting expression of belief through music and material culture Atlantic Communities María Teresa Caneda-Cabrera, Rui Carvalho Homem, David Johnston, 2022-12-26 Historically the Atlantic Ocean has served to define the relationship between the so called worlds of the Old and the New A geographical divide between continents it is also no less a historical space across which peoples have

travelled sharing ideas and cultural practices a site of encounter and exchange that has shaped the lives of communities and nations across the globe This book maps this productive web of multi layered connections not just in terms of military migratory economic and commercial actions and processes but also of shifting lines of translation that have mobilised ideas fomented the exchange of experiences and opened up channels of communication The Atlantic is considered here a global translation zone that has been created through a myriad of crossings physical and conceptual and historically shaped through the reciprocal influences between the different communities situated around and beyond its shores In the final analysis the book explores the Atlantic as a zone of created relation characterised by the interaction between processes of translation mobility and in the best of cases of hospitality and most importantly as a space no longer defined by economic and military power but by the multiplicity of identities forged in its ambit This book will be of interest to scholars and advanced students of translation studies literature history human geography politics sociology and cultural studies It was originally published as a special issue of the journal *Atlantic Studies*
