Self-Evident Truths , IN PURSUIT OF THE FREE PASS John Howard,2012-09-28 John Howard asks WHY Why can t we display the Ten Commandments in public places Why can t we say Merry Christmas even though that s the holiday we are celebrating Why do we all have to kowtow to the liberal Church of the Enlightened s dictates and lack of morals Why can t children pray in school if that is their choice Why can t we find out the truth about our elected leaders who pay attorneys to cover up their past And WHAT can the right thinking Christian majority do about changing the messages that are sent out each day seeking to dismiss them as crazy people that seek to destroy this great nation The United States of America is the greatest country in the world and only when right thinking foundational principles are brought to surface can we truly have a nation of which to be proud Pulpit Politics Warren Lang Vinz,1997-01-01 Vinz identifies the form of American nationalism as the nationalism of messianism but demonstrates that Protestant leadership throughout the twentieth century gave no consistent voice on what America should be messianic about displaying a cacophonous mix of nationalistic expressions that both reflected and contributed to societal confusion **The Economic Review** ,1896 Includes section Reviews *The University of the World Instituted to Establish the Philosophy of Americanism* ,1906 **The University Digest** ,1906

Proceedings [first-third Meetings]. Joint Commission on Unification of the Methodist Episcopal Church and the Methodist Episcopal Church, South, 1918 *Gender Equality and Policy Implementation in the Corporate World* Isabelle Engeli, Amy G. Mazur, 2022-05-05 *Gender Equality and Policy Implementation in the Corporate World* takes a unique approach to the issue of gender equality in corporations in the 21st century It examines the implementation of specific policies that seek to promote women's presence on corporate boards in 15 democracies in Western and Central Eastern Europe North America and Australasia through the lens of the Gender Equality Policy in Practice Approach The thirteen empirically rich country chapters by leading country experts and two separate comparative chapter answer core questions How were policies adopted and implemented Did they achieve any degree of success that would allow for real and lasting equality What were the politics of the pursuit of corporate gender equality across the 15 countries What worked and did not work and why What are the lessons to be drawn from these experiences The findings of the book show that policy implementation does matter but that in this last bastion of male domination policies have had more success in increasing women's numbers over challenging gender biased norms that block women of all cultural and socio economic backgrounds from gaining real power on boards The path breaking study shows that the reasons for this slow change are highly complex and case specific in the details of each policy mix While progress has been slow in coming it has still been made even in these challenging times Future policy success the book concludes is in the hands of men and women willing to come forward to overcome these well entrenched obstacles *The New Heretics* Rebekka King, 2023-02-07 Charts the development of progressive Christianity's engagement with modern science historical criticism and liberal humanism Christians who have doubts about the existence of God Who do not believe in the divinity of Jesus Who reject the accuracy of the Bible The New Heretics explores the development of progressive Christianity a movement of Christians who do not reject their identity as Christians but who believe Christianity must be updated for today's times and take into consideration modern science historical criticism and liberal humanism Drawing on three years of ethnographic fieldwork in North America Rebekka King focuses on testimonies of deconversion collective reading practices and the ways in which religious beliefs and practices are adapted to fit secular lives King introduces the concept of lived secularity as a category with which to examine the ways in which religiosity often is entangled with and subsumed by secular identities over and against religious ones This theoretical framework provides insight into the study of religious and cultural hybridity new emerging groups such as the nones atheism religious apostasy and multi religious identities The New Heretics pays close attention to the ways that progressive Christians understand themselves vis vis a conservative or fundamentalist Christian other providing context concerning the

presumed divide between the religious right and the religious left King shows that while it might be tempting to think of progressive Christians as atheists there are religious and moral dimensions to their disbelief For progressive Christians the act of questioning and rejecting God alongside other theological tenets is framed as a moral activity Ultimately the book showcases the importance of engaging with the ethics of belief in understanding contemporary Christianity *Political Liberalism and Plurinational Democracies* Ferran Requejo, Miquel Caminal, 2012-08-06 The current context of developed societies is characterised by a number of phenomena the most significant of which are processes of economic globalisation information technologies increasing multiculturalism and the emergence of cases of national pluralism which require full political accommodation both within democracies and in the international sphere The book examines the current state of affairs concerning the political recognition and constitutional accommodation of national pluralism in liberal democracies in the global era of the 21st century The aim of this volume is to reveal the normative analytical and institutional shortcomings of liberal democracies in multinational contexts and to offer alternatives that theoretically refine and practically improve the recognition and political accommodation of national pluralism within the democratic polity Through a series of analyses linked to the development of political liberalism in contemporary states the contributors analyse the direct impact on the way that democracies have treated and continue to treat national pluralism in modern day societies Bringing together leading scholars in the field to explore the different debates and approaches to this important issue this volume will interest researchers and students of nationalism federalism and multiculturalism as well as political actors and policy makers with a particular interest in the management of diversity in present day liberal democracies **Political Liberalism and Plurinational Democracies** Ferran Requejo Coll, Miquel Caminal i Badia, 2011 The book examines the current state of affairs concerning the political recognition and constitutional accommodation of national plurality in liberal democracies in the global era of the 21st century It features case studies on Belgium Canada Spain UK and the European Union *The Living Age* ,1867 *Littell's Living Age* ,1867 *Littell's Living Age* Eliakim Littell, Robert S. Littell, 1867 **The Common Good and Christian Ethics** David Hollenbach, 2002-08 The Common Good and Christian Ethics rethinks the ancient tradition of the common good in a way that addresses contemporary social divisions both urban and global David Hollenbach draws on social analysis moral philosophy and theological ethics to chart new directions in both urban life and global society He argues that the division between the middle class and the poor in major cities and the challenges of globalisation require a new commitment to the common good and that both believers and secular people must move towards new forms of solidarity
