Peace and Survival David Gress,1985 **Fast Jets on the Front Line** Alan Munro,2025-08-30 In *Fast Jets on the Front Line* Alan Munro reflects on his time in the RAF and the Cold War jets which he flew Having started his career after basic training on the Gloster Javelin with No 228 OCU Alan went on to become a flying instructor at No 1 Flying Training School Linton on Ouse But with the UK s withdrawal from East of Suez he found himself with a ground posting and questioning whether he would see front line flying again Luckily for Alan this wasn t the case and he was soon posted to Lightnings and Harriers before returning to 228 OCU to fly on Phantoms It is Alan s time on the Phantoms that is the main crux of this book He discusses how the withdrawal of Lightnings from the air force changed the

Phantom's role from attack to defence and the impact this had on Phantom squadrons like 29 Squadron which he flew on. A move to RAF Germany saw Alan find the front line action he craved during his ground posting and he joined 19 Squadron as they became operational and part of RAF Germany's Battle Flight. During his time with RAF Germany, Alan flew with a number of NATO countries and he recounts tales of squadron exchanges. This then led to a tour at the NATO Tactical Leadership Programme in Jever north Germany before he finished his time in the RAF on the Tornado GR1 in the early 1990s. His book is illustrated throughout with photographs from the author's private collection and is a must for fans of the Cold War era fighters.

The Burden of the Past Kan Kimura, 2019-01-29 The Burden of the Past reexamines the dispute over historical perception between Japan and South Korea going beyond the descriptive emphasis of previous studies to clearly identify the many independent variables that have affected the situation. From the history textbook debates to the Occupation period exploitation of comfort women to the Dokdo Takeshima territory dispute and Yasukuni Shrine visits, Professor Kimura traces the rise and fall of popular political and international concerns underlying these complex and highly fraught issues. Utilizing Japanese and South Korean newspaper databases to review discussion of the two countries' disputed historical perceptions from the end of World War II to the present, *The Burden of the Past* provides readers with the historical framework and the major players involved, offering much needed clarity on such polarizing issues. By seeing behind the public discourse and political rhetoric, this book offers a firmer footing for a discussion and the steps toward resolution.

Histories of the Future Alan Sandison, 2016-04-30 This collection of interdisciplinary essays examines some of the ways in which writers, artists, film makers, strategists, and political thinkers have imagined the future over the last two centuries. Although a number of contributions discuss mainstream science fiction, the collection's emphasis is not on any single genre but rather on the ways in which different histories, technological, cultural, military, ideological, generate and inform different modes of speculation about things to come. These histories also disclose that our patterns of expectation are much influenced by our relationship to the past.
