Coutin, Barbara Yngvesson, 2023-04-15 Documenting Impossible Realities explores the limitations of conventional accounts through which belonging is documented focusing on the experiences of adoptees deportees migrants and other exilic populations Susan Bibler Coutin and Barbara Yngvesson speak to the current historical moment in which the dichotomy between an above ground inhabited by dominant groups and an underground to which unauthorized immigrants political exiles and transnational adoptees are relegated cannot be sustained This dichotomy was made possible by the illusion that some people do not belong that some forms of kin are not real or that certain ways of knowing do not count To examine accounts that challenge such illusions Coutin and Yngvesson focus on the spaces between groups where difference is constituted and where the potential for new forms of relationship may be realized By juxtaposing and moving between entangled realities and modes of expression Documenting Impossible Realities conveys the emotional experience of oscillating between being here and gone legitimate and treated as counterfeit BIRIMISA: Portraits, Plays, Perversions

Smith, 2021-05-01 An analysis of the political and ecological consequences of charting the Amazon River basin in narrative fiction Mapping the Amazon examines how widely read novels from twentieth century South America attempted to map the region for readers Authors such as Jos Eustasio

Rivera R mulo Gallegos Mario Vargas Llosa César Calvo M rcio Souza and M rio de Andrade travelled to the Amazonian regions of their respective countries and encountered firsthand a forest divided and despoiled by the spatial logic of extractivism Writing against that logic they fill their novels with geographic human and ecological realities omitted from official accounts of the region Though the plots unfold after the height of the Amazon rubber boom 1850 1920 the authors construct landscapes marked by that first large scale exploitation of Amazonian biodiversity The material practices of rubber extraction resurface in the stories told about the removal of other plants seeds and minerals from the forest as well as its conversion into farmland Smith places the counter discursive impulses of each novel in dialogue with various modernizing projects that carve Amazonia into cultural and economic spaces border commissions extractive infrastructure school geography manuals Indigenous education programs and touristic propaganda Even the novel maps studied however have

Narratives of Mistranslation Denise Kripper,2023-01-17 This book offers unique insights into the role of the translator in today's globalized world exploring Latin American literature featuring translators and interpreters as protagonists in which prevailing understandings of the act of translation are challenged and upended The volume looks to the fictional turn as a fruitful source of critical inquiry in translation studies showcasing the potential for recent Latin American novels and short stories in Spanish to shed light on the complex dynamics and conditions under which translators perform their task Kripper unpacks how the study of these works reveals translation not as an activity with communication as its end goal but rather as a mediating and mediated process shaped by the unique manipulations and motivations of translators and the historical and cultural contexts in which they work In exploring the fictional representations of translators the book also outlines pedagogical approaches and offers discussion questions for the implementation of translators narratives in translation language and literature courses *Narratives of Mistranslation* will be of interest to scholars and educators in translation studies especially those working in literary translation and translation pedagogy Latin American literature world literature and Latin American studies *Spanish Fiction in the Digital Age* C. Rossini,2008-04-17 In *Contemporary Latina/o Theater* Jon D Rossini explores the complex relationship between theater and the creation of ethnicity in an unprecedented examination of six Latina/o playwrights and their works Miguel Pi ero Luis Valdez Guillermo Reyes Octavio Solis Jos Rivera and Cherr e Moraga Rossini exposes how these writers use the genre as a tool to reveal and transform existing preconceptions about their culture Through wrighting the triplicate process of writing plays righting misconceptions about ethnic identity and creating an entirely new way of understanding Latina/o culture these playwrights directly intervene in current conversations regarding ethnic identity providing the tools for audiences to reexplore their previously held perspectives outside the theater Examining these writers and their works in both cultural and historical contexts Rossini reveals how playwrights use the liminal space of the stage an area on the thresholds of both theory and reality to wright new insights into Latina/o identity They use the limits of the theater itself to offer practical explorations of issues that could otherwise be discussed only in highly theoretical terms Rossini traces playwrights methods as they address some of the most challenging issues facing contemporary Latinas/os in America from the struggles for ethnic solidarity and the dangers of a community based in fear to stereotypes of Latino masculinity and the

problematic fusion of ethnicity and politics Rossini discusses the looming specter of the border in theater both as a conceptual device and as a literal reality a crucial subject for modern Latinas as given recent legislation and other actions Throughout the author draws intriguing comparisons to the cultural limbo in which many Latinas as find themselves today An indispensable volume for anyone interested in drama and ethnic studies Contemporary Latina o Theater underscores the power of theatricality in exploring and rethinking ethnicity Rossini provides the most in depth analysis of these plays to date offering a groundbreaking look at the ability of playwrights to correct misconceptions and create fresh perspectives on diversity culture and identity in Latina o America Gallagher, Marriott, Derringer & Trower Dan Muise,2002-04 Rory Gallagher Steve Marriott Rick Derringer and Robin Trower are legends The glue behind legendary barn burning hard touring outfits like Taste The Small Faces Humble Pie Johnny Winter The Edgar Winter Group and Procol Harum and later realizing their full potentials as solo artists this is the first biography of four players whose dedication to music and virtuosity has been inspirational to a generation of fans and admirers Back cover Catalog of Copyright Entries Library of Congress.
