The Trinity Hans Schwarz, 2017-09-15 In the last thirty years books on the Trinity have abounded There seems to be a fascination with this mysterious topic especially among systematic theologians The topic has been mined for many different interests from liberation theology to feminist interpretations of the Christian heritage and from neo Reformation theology to interreligious dialogue This book has no intention of adding to the plethora of treatises on the Trinity The main question with which it is concerned is what is really scripturally tenable with regard to the Trinity and what is unwarranted theological construction or even speculation Through this question Schwarz tries to discern whether the theological assertions made about the Trinity are in line with the biblical base from which they are derived or whether they have veered off in a more or less questionable direction What takes shape here is a story how the doctrine of the Trinity developed over the subsequent centuries from the traces in Scripture to a centralized dogma at the heart of Christian teaching We witness in this an evolution from proclamation to controversy to speculation What are we to make of this doctrine How do we articulate the biblical faith today

Trinity is intended as one contribution to this renewed theological discussion of the trinity of God In the first part the author examines the New Testament matrix of an emerging trinitarianism the shaping of the tradition by the Greek fathers and the systematization of the doctrine in Augustine and medieval Scholasticism The second part explores the post Enlightenment understanding of the Trinity in Schleiermacher and Hegel and the twentieth century interpretation of Barth Tillich Rahner Pannenberg Moltmann Muhlen Whitehead and others The historical and critical parts lay the foundation for the third part of this study a contemporary reinterpretation of the Trinity which complements Aquinas's metaphysical concept of person with psychological and subjective dimensions brought out by contemporary thinkers The result of the rethinking of the Trinity is an understanding of God not as self enclosed Absolute but as self communicating personal deity William J Hill O P is Professor Emeritus of Theology at The Catholic University of America He received his S T D degree from the University of St Thomas Angelicum Rome and has taught at the Dominican House of Studies of Washington D C He has written numerous articles on theology and religion and is author of Knowing the Unknown God **The Triune God** Edmund J.
