Wills, 2012-11-28 Environmental issues in the USA are more important now than ever before The devastation inflicted by Hurricane Katrina growing evidence of global warming and a struggling national energy supply highlight the unfolding crisis Environmental fears translate into US automobile giants plying consumers with fuel efficient cars in the MPG Lounge of sales Politicians talk of energy independence and getting tough on polluters Fears gravitate around a fast approaching doomsday scenario an environmental endgame of wholesale collapse unless something is done Yet fears of doomsday are nothing new John Wills shows how the current environmental crisis is firmly rooted in the past As well as explaining how today's problems are manifestations of older systems of economics culture and politics he also argues that America has already witnessed a range of doomsday scenarios both real and imagined He identifies and explores a cast of doomsday landscapes that includes the Battle of the Wilderness in Virginia the Santa Barbara Oil Spill the Fable for Tomorrow town featured in Rachel Carson's Silent Spring 1962 and Nevada's Doom Towns 1 and 2 blown apart by atomic testing in the 1950s He reflects on contemporary ruminations over whether nature as a category endures given both the rising contamination of the US landscape and consumer proclivity for celebrating fake mementos of the outdoors such as plastic lawn flamingos and

artificial plants And most significantly he poses the question of whether Americans have been inviting doomsday through their long term environmental actions **Berkshire Encyclopedia of World History** ,2005 A comprehensive encyclopedia of world history with 538 articles that trace the development of human history with a focus on area studies global history anthropology geography science arts literature economics women s studies African American studies and cultural studies related to all regions of the world Provided by publisher Berkshire, Two Hundred Years in Pictures, 1761-1961 William H. Tague,Robert B. Kimball,1961 **The Art of Solidarity in the Middle Ages** Gervase Rosser,2015-03-19 Guilds and fraternities voluntary associations of men and women proliferated in medieval Europe The Art of Solidarity in the Middle Ages explores the motives and experiences of the many thousands of men and women who joined together in these family like societies Rarely confined to a single craft the diversity of guild membership was of its essence Setting the English evidence in a European context this study is not an institutional history but instead is concerned with the material and non material aims of the brothers and sisters of the guilds Gervase Rosser addresses the subject of medieval guilds in the context of contemporary debates surrounding the identity and fulfilment of the individual and the problematic question of his or her relationship to a larger society Unlike previous studies The Art of Solidarity in the Middle Ages does not focus on the guilds as institutions but on the social and moral processes which were catalysed by participation These bodies founded schools built bridges managed almshouses governed small towns shaped religious ritual and commemorated the dead perceiving that association with a fraternity would be a potential catalyst of personal change Participants cultivated the formation of new friendships between individuals predicated on the understanding that human fulfilment depended upon a mutually transformative engagement with others The peasants artisans and professionals who joined the guilds sought to change both their society and themselves The study sheds light on the conception and construction of society in the Middle Ages and suggests further that this evidence has implications for how we see ourselves A History of the English Baptists Joseph Ivimey,1830 **A History of the English Baptists: The principal events of the history of the Protestant dissenters, during the reign of Geo. III and of the Baptist churches in London, with notices of the principal churches in the country during the same period** Joseph Ivimey,1830 *A History of the English Baptists, Including an Investigation of the History of Baptism in England ... To which are Prefixed Testimonies of Ancient Writers in Favour of Adult Baptism, Etc* Joseph Ivimey,1830 Hidden Demons Margery B. Metzger,2023-01-03 A New England community is rocked by a serial killer a mass shooter and a sexual predator all in a single day in this true crime chronicle On January 7 1994 residents of Berkshire Hills woke up to a typical winter day in the majestic woods of Western Massachusetts But as that fateful day unfolded three separate crimes each unsettling in its own way would converge in this quaint corner of New England That day a trial began for college student Wayne Lo who celebrated his 18th birthday by purchasing an assault rifle and opening fire on campus killing two and wounding four others Elsewhere two young girls were accosted in the changing room at the local

pool And another young girl narrowly escaped being abducted at gunpoint on her way to school Her quick thinking later resulted in profound repercussions regarding another case that of a young boy who vanished from a strip mall Though these events appeared unrelated it seemed as though the world had suddenly gone mad In Hidden Demons Margery B Metzger details these events and reveals a savage serial killer Lewis Lent Jr who lurked in the shadows It was the bravery of a father and daughter and the remarkable work of law enforcement officers that would see justice done
