and complex social processes that are continually changing and evolving according to time location and context This book explores the ways in which the concepts of social capital and ethnicity play a central role in young people s relationships participation in wider social networks and the construction of identities Researchers and scholars working in the fields of children and youth studies education families social and racial and ethnic studies offer differing accounts of the ways in which social capital operates in young people s lives across diverse social settings and ethnic groups This edited book is timely and significant given the public interest of researchers academics politicians and policymakers working in areas of youth and community work race relations and cultural diversity This book was published as a special issue of Ethnic and Racial Studies

Growing Up in Affiliation with a Religious Community Arniika Kuusisto, Seven Sacraments for Everyone Dale F. Coye, 2014-03-31 Millions of Christians are abandoning their churches to become spiritual seekers but now find themselves adrift Without the church what do we believe in Where do we look for the Sacred in our lives The seed of an answer can be found in the Roman Catholic sacraments but with a shift in focus from rites and rituals to human experience It s not baptism it s the birth of a child that is holy It s not the wedding ceremony it s the sublime oneness we feel in the arms of our best beloved that lifts us into the realm of the Divine Seven Sacraments for Everyone maps the roads that lead to these out of this world experiences and into the heartland of the Sacred By acknowledging these moments of Mystery and teaching our children to respect them we will find the clues to a universal moral code on which to build a healthier more meaningful world

Catalytic Conversations Ann C. Baker, 2015-04-08 In today s increasingly globalized world it is essential that people of diverse ethnicities and socio economic backgrounds learn to work together and communicate effectively This book offers a breakthrough approach to recognizing that differences among people are resources for organizations to tap as they strive to anticipate change and adapt rapidly in an unpredictable world Catalytic Conversations provides a conceptual framework for understanding how complex communication patterns of social networks influence and are influenced by organizational structures It discusses how to enhance the quality and viability of groups and organizational life by paying attention to how people talk and do not talk to each other The book distinguishes between conversations that support organizational enhancement and others that inhibit innovation and explores the complexity of organizational communication in detail

Sugar and Spice, and Everything Nice: Exploring Prosocial Development Through Infancy and Early Childhood Chris Moore, Markus Paulus,Amanda Williams,2015-05-18 Prosocial behaviors such as sharing helping and comforting begin to emerge early in development The presence of these prosocial behaviors is important not only in childhood but throughout one s lifetime as behaving prosocially is important for social functioning and maintaining social relationships For many years researchers have been interested in how and when these behaviors develop as well as how these behaviors are influenced by a variety of factors Recently however exciting new research has shown novel and surprising findings particularly on the early development and ontogenetic origins of prosocial behavior Research in this area is important as by understanding what

influences prosocial behavior we may be better able to sustain and support the development of prosociality Further a richer understanding may help us to be better able to mediate factors that impede or negatively influence positive social behaviors as well as negate triggers that may lead to negative social behaviors Many theoretical views guide different streams of developmental research in this field Here we will bring together scholars from various theoretical backgrounds to collectively explore the development of early prosocial behaviors from early infancy to early school aged children Contributors will offer insights using a variety of methodologies from various resource allocation paradigms derived from economist game theorists to looking time paradigms and more Together we seek to broadly explore questions pertaining to prosocial development for example at what age do prosocial behaviors moral understanding or social selectivity emerge Contributors will individually address unique research questions across a spectrum of topics For example how prosocial behaviors are influenced by underlying mechanisms such as moral emotions e g guilt and sympathy will be explored as will how children s expectations may shape their behaviors and how they come to care about others Questions surrounding different contexts will also be investigated For example how does empathy influence prosociality Do children treat partners differently depending on their past behaviors wealth or other characteristics Does whether there is a cost associated with behaving prosocially influence decision making By incorporating the work of numerous researchers in the field of prosocial development who contribute comprehensive reviews of past research unique theoretical perspectives and empirical approaches the proposed research topic endeavors to provide new insights into a breadth of prosocial behaviors In sum the proposed research topic will contribute to our understanding of prosocial development in the early years by highlighting the relevant factors and contexts under which prosocial behavior emerges
