Walter Benn Michaels

The Trouble With Government:

The Trouble with Government Derek Curtis Bok, 2001 The author of *State of the Nation* seeks to determine the main reasons for the failings and frustrations associated with government and offers concrete steps that Americans can take to become politically engaged and to help the United States to improve its performance 3 tables

The Trouble with America Kenneth J. Long, 2008 *The Trouble with America* critiques the theory and practice of American government focusing on the fatal flaws of America's core political arrangements Institutionalized pluralism the structural dispersal of power generates government too weak to solve our public problems American constitutionalism the limitation of government power and authority protects property rights far better than it defends our civil liberties and it offers little or no protection for non citizens Capitalism is a hyper competitive and grossly unfair economic system which rewards pre existing wealth far better than hard work or talent and encourages petty materialist consumption of mostly low quality goods undermining taste as well as fairness Taken together pluralism constitutionalism and capitalism in America harm our society in a myriad of ways leaving us with inadequate representation poor leadership social and political paralysis and irresponsibility unrealistic self images and scandalously poor domestic and foreign policies This book will prove a valuable supplement in American government courses an alternative to the centrist material currently dominating textbooks on this subject

The Trouble with Theory Gavin Kitching, 2020-07-23 Postmodern theory has engaged the hearts and heads of the brightest students because of its apparent political and social radicalism Despite this Professor Gavin Kitching claims that At the heart of postmodernism is very poor deeply confused and misbegotten philosophy As a result even the very best students who fall under its sway produce radically incoherent ideas about language meaning truth and reality This is not another conservative attack on postmodernism Rather it is a carefully considered analysis from a dedicated university teacher who is convinced that we have gone terribly astray He shows that postmodern theory is at best irrelevant to and at worst undermining of persuasive political arguments and reveals the basic philosophical confusion at its heart which makes this so Essential reading for any student writing a thesis in the humanities and the social sciences and for their teachers It is the strongest and best attack on the ravages of routine post modernism that I have ever read I applaud the way he lists the good causes that students warmly espouse and then suggests a simpler way to support them without the self destructive it's all just language that is implicit in their work Professor Sir Bernard Crick Emeritus Professor of Politics Birkbeck College University of London Gavin Kitching rattles the cages Will the inmates hear this They should if only for the reason that there is virtue in learning to argue against yourself This is a serious book Professor Peter Beilharz Sociology La Trobe University Required reading for anyone who wants to understand how and why postmodernism has had such disastrous pedagogical consequences Professor David G Stern Philosophy University of Iowa

American Indians and the Trouble with Sovereignty Kouslaa T. Kessler-Mata, 2017-10-19 Kessler Mata argues for a constitutive theory of tribal sovereignty based

on the interconnected relationships between tribes and non federal governments

The Trouble with Diversity Walter Bennis Michaels, 2016-06-14 A critique of the American obsession with diversity argues that we are ignoring the ever widening economic divide in American society that diversity has created a false notion of social justice and that we need to emphasize equality over diversity
