Parricide and Violence against Parents Marianna Muravyeva,Phillip Shon,Raisa Maria Toivo,2020-12-30 Parricide and Violence Against Parents takes a historical and

criminological approach to the research on parricide and violence against parents placing the research in the context of social development from the 1500s to contemporary society and giving a global overview and comparison The book examines parricide and violence against parents as historically and culturally sensitive phenomena It offers evidence on a seemingly rare subject from different eras areas and cultures and then uses the cross disciplinary data to produce a new systematic insight for the reader Case studies shift the discussion from the contemporary focus on adolescent to parent abuse to examining the sources of conflict during life cycles of parents and their offspring A historical approach illuminates the variations in conflicts between parents and their offspring that are shaped by the life stages of the victims and offenders themselves across time The book argues that parental authority has been marked by property ownership and tax paying responsibilities throughout history The continued possession of property resulted in power the reluctance to part with it becoming a notable source of conflict across generations within families Parental authority was protected by means of heavy penalties and punishments and didactic teachings in almost every society at every stage of historical development It was also challenged constantly by children as a part of their coming into adulthood The abuse of parents has often been connected to situations where adult children were prevented from gaining the amount of independence appropriate to their position in life This led to disputes over authority and the legitimate grounds for that authority Offering an insight into complicated and interconnected histories of generational conflicts and how they affect modern families in different parts of the world this book will be of great interest to students and scholars of criminology history of crime history of the family family violence homicide studies gender studies history of emotions political violence and social work *Health Sciences I* Tuncay ÖZGÜNEN,2019-03-29 *The SAGE Handbook of Domestic Violence* Todd K. can contribute to reducing and preventing family violence to healing its survivors and to confronting the wellsprings of this violence The book discusses the shortcomings of the present criminal justice response to family violence It suggests that these shortcomings require us to explore other ways of addressing this apparently intractable problem Marriage and the Family Julie Xuemei Hu, Shondrah Tarrezz Nash, 2019-04-23 Marriage and the Family Mirror of a Diverse Global Society is a comprehensive text about marriage and the family in sociology family science and diversity studies The book is divided into four parts studying marriage patterns and understanding family diversity developing and maintaining intimate relationships tackling family issues and managing household crises and appreciating contemporary living arrangements in a diverse American society and across the global community Marriage and the Family is unique in its focus on diversity as well as its global perspective Diversity Overview boxes feature vignettes of family diversity in America Global Overview boxes invite students to experience family life in different areas of the world Indeed families become a mirror that helps students see a diversifying American society and a globalizing world Geriatric Emergency Care, An Issue of Clinics in Geriatric Medicine, E-Book Maura Kennedy, Shan Liu, 2023-10-06 In this issue of Clinics in Geriatric Medicine guest editors Drs Maura Kennedy and Shan Liu bring their considerable expertise to the topic of Geriatric Emergency Care Top experts in the field cover critical topics or concepts in geriatric emergency medicine and topics for which there is new research including guidance on geriatricizing the ED and ED observation unit caring for persons with dementia and examining the intersection of DEI and care of an aging population Contains 13 relevant practice oriented topics including the aging process physiologic changes and frailty elder abuse and neglect recognition and management in the emergency department best practices in end of life and palliative care in the ED falls and other trauma in the older adult and more Provides in depth clinical reviews on geriatric emergency care offering actionable insights for clinical practice Presents the latest information on this timely focused topic under the leadership of experienced editors in the field Authors synthesize and distill the latest research and practice guidelines to create clinically significant topic based reviews
