Understanding Korean Literature Hŭng-gyu Kim,1997 *Understanding Korean Literature* Han guk munhak ui ihae introduces the development and characteristics of the various historical and contemporary genres of Korean literature in a refreshingly clear way It also presents detailed explanations of the development of a literary Korean language and of literacy and a reading public in Korea A brief history of literary criticism both traditional and modern is included to give the discussion historical context This translation provides a long overdue source on Korean literature that can be used as a reference or text in Korean and Asian studies courses and as a general introduction to Korean literature for students of literature [Understanding Korean Literature](#) Hŭng-gyu Kim,1997 [Understanding Korean Literature](#) Hung-Gyu Kim,Robert Fouser,2016-09-16 This study examines the development and characteristics of various historical and contemporary genres of Korean literature It presents explanations on the development of Korean literacy and offers a history of literary criticism traditional and modern giving the discussion an historical context **Understanding Korean Literature** , **A History of Korean Literature** Peter H. Lee,2003-12-18 This is a comprehensive narrative history of Korean literature It provides a wealth of information for scholars students and lovers of literature Combining both history and criticism the study reflects the latest scholarship and offers a systematic account of the development of all genres Consisting of twenty five chapters it covers twentieth century poetry fiction by women and the literature of North Korea This is a major contribution to the field and a study that will stand for many years as the primary resource for studying Korean literature **Understanding modern Korean literature** Nam-Hyun Cho,1991 **Understanding Korean Film** Jieun Kiaer,Loli Kim,2021-11-03 Film viewing presents a unique situation in which the film viewer is unwittingly placed in the role of a multimodal translator finding themselves entirely responsible for interpreting multifaceted meanings at the mercy of their own semiotic repertoire Yet researchers have made little attempt as they have for literary texts to explain the gap in translation when it comes to multimodality It is no wonder then that in an era of informed consumerism film viewers have been trying to develop their own toolboxes for the tasks that they are faced with when viewing foreign language films by sharing information online This is particularly the case with South Korean film which has drawn the interest of foreign viewers who want to understand these untranslatable meanings and even go as far as learning the Korean language to do so *Understanding Korean Film A Cross Cultural Perspective* breaks this long awaited ground by explaining the meaning potential of a selection of common Korean verbal and non verbal expressions in a range of contexts in South Korean film that are often untranslatable for English speaking Western viewers Through the selection of expressions provided in the text readers become familiar with a system that can be extended more generally to understanding expressions in South Korean films Formal analyses are presented in the form of in depth discursive deconstructions of verbal and non verbal expressions within the context of South Korea s Confucian traditions Our case studies thus illustrate in a more systematic way how

various meaning potentials can be inferred in particular narrative contexts

Early Korean Literature David

McCann, 2000-09-14 Preeminent scholar and translator David R McCann presents an anthology of his own translations of works ranging across the major genres and authors of Korean writing stories legends poems historical vignettes and other works and a set of critical essays on major themes A brief history of traditional Korean literature orients the reader to the historical context of the writings thus bringing into focus this rich literary tradition The anthology of translations begins with the Samguk sagi or History of the Three Kingdoms written in 1145 and ends with The Story of Master H written in the late 1700s Three exploratory essays of particular subtlety and lucidity raise interpretive and comparative issues that provide a creative sophisticated framework for approaching the selections *Understanding Modern Korean Literature* Yoon-sik

Kim, 1998 Understanding Korean Webtoon Culture Dal Yong Jin, 2023-11-20 Webtoons a form of comic that are typically published digitally in chapter form are the latest manifestation of the Korean Wave of popular culture that has increasingly caught on across the globe especially among youth Originally distributed via the Internet they are now increasingly distributed through smartphones to ravenous readers in Korea and around the world The rise of webtoons has fundamentally altered the Korean cultural market due to the growth of transmedia storytelling the flow of a story from the original text to various other media platforms such as films television and digital games and the convergence of cultural content and digital technologies Fans can enjoy this content anytime and anywhere either purely as webtoons or as webtoon based big screen culture *Understanding Korean Webtoon Culture* analyzes webtoons through the lens of emerging digital cultures and discusses relevant cultural perspectives by combining two different yet connected approaches political economy and cultural studies The book demonstrates the dynamics between structural forces and textual engagement in global media flows and it illuminates snack culture and binge reading as two new forms of digital culture that webtoon platforms capitalize on to capture people's shifting media consumption
