Organized Crime and American Power Michael Woodiwiss,2024-06-03

Popular histories of organized crime in the United States often look to the Mafia and the sons of early twentieth century immigrants such as Al Capone Lucky Luciano and Meyer Lansky for their origins In this second edition of Organized Crime and American Power Michael Woodiwiss refocuses on US organized crime as an American problem The book starts in 1789 with the birth of a new nation intended to be run according to laws and conventions with a written commitment to civil rights Woodiwiss examines the organization of crime before the Civil War which damaged or destroyed the lives of those excluded from constitutional protections Indigenous peoples Black people and women The book focuses on white supremacist crime and the pernicious influence of Southern leaders in alliance with opportunistic politicians It examines the organized crimes of powerful business interests in alliance with politicians as well as the corrupt consequences of the US moralistic campaigns against alcohol gambling drugs and abortion Organized Crime and American Power brings solid historical evidence and analysis to the task of refuting conventional wisdom that frames organized crime as something external to US political economic and social systems

Gangster

Capitalism Michael Woodiwiss,2005 We know all about organized crime Blockbuster movies and books and thousands of news stories continually tell an eager public that organized crime is what gangsters do Closely knit ethnically distinct and ruthlessly efficient these mafias control the drugs trade people trafficking and other serious crimes If only states would take the threat seriously and recognize the global nature of modern organized crime the FBI s success against the New York mafias could be replicated throughout the world The wicked trade in addictive drugs could be halted The trouble is as

Michael Woodiwiss demonstrates in shocking and surprising detail what everyone knows is pretty much completely wrong. Organized crime is dominated by employees of multinational companies, politicians and bureaucrats. Gangsters are a problem but they are minor players when compared with the intelligence and law enforcement agencies that selectively enforce drugs prohibition and profit from it. The position of large corporations in the global economy provides the most mouth watering opportunities for illegal profits. Woodiwiss shows how respectable businessmen and revered statesmen have seized these opportunities in an orgy of fraud and illegal violence that would leave the most hardened Mafioso speechless with admiration.

Routledge Handbook of Transnational Organized Crime Felia Allum, Stan Gilmour, 2012-03-15. Transnational organized crime crosses borders, challenges States, exploits individuals, pursues profit, wrecks economies, destroys civil society and ultimately weakens global democracy. It is a phenomenon that is all too often misunderstood and misrepresented. This handbook attempts to redress the balance by providing a fresh and interdisciplinary overview of the problems which transnational organized crime represents. The innovative aspect of this handbook is not only its interdisciplinary nature but also the dialogue between international academics and practitioners that it presents. The handbook seeks to provide the definitive overview of transnational organized crime, including contributions from leading international scholars as well as emerging researchers. The work starts by examining the origins, concepts, contagion and evolution of transnational organized crime and then moves on to discuss the impact, governance and reactions of governments and their agencies before looking to the future of transnational organized crime and how the State will seek to respond. Providing a cutting edge survey of the discipline, this work will be essential reading for all those with an interest in this dangerous phenomenon. **Gangs and**

Organized Crime George W. Knox, Gregg Etter, Carter F. Smith, 2018-07-04. In *Gangs and Organized Crime* George W. Knox, Gregg W. Etter and Carter F. Smith offer an informed and carefully investigated examination of gangs and organized crime groups covering street gangs, prison gangs, outlaw motorcycle gangs and organized crime groups from every continent. The authors have spent decades investigating gangs as well as researching their history and activities and this dual professional/academic perspective informs their analysis of gangs and crime groups. They take a multidisciplinary approach that combines criminal justice, public policy and administration, law, organizational behavior, sociology, psychology and urban planning perspectives to provide insight into the actions and interactions of a variety of groups and their members. This textbook is ideal for criminal justice and sociology courses on gangs as well as related course topics like gang behavior, gang crime and the inner city, organized crime families and transnational criminal groups. *Gangs and Organized Crime* is also an excellent addition to the professional's reference library or primer for the general reader. More information is available at the supporting website www.gangsandorganizedcrime.com. **Sex Trafficking** Marie Segrave, Sharon Pickering, 2012-12-06. Trafficking in persons, particularly the trafficking of women into sexual servitude, sex trafficking has generated much attention over the past decade. This book provides a critical examination of the international and national frameworks

developed to respond to this issue focused both on the design of policy responses and their implementation. Uniquely, it brings together and brings to life the voices of policymakers, non-government agencies, and trafficked women. The analysis is grounded in rich empirical work and research in Europe, Asia, Australia, and North America. This book examines how sex trafficking has been mobilized within anti-trafficking policies across the globe and offers a close examination of the dominant international framework drawing upon a rich and diverse set of case studies: Australia, Serbia, and Thailand. This analysis draws upon over 100 interviews with trafficking experts across the three nations, including policymakers, police, immigration authorities, social workers, lawyers, UN agencies, local and international NGOs, and activists. Critically, it also draws upon the voices of women who have been trafficked.
