Understanding The Visual Understanding Contemporary Culture Series:

Understanding the Visual Tony Schirato, Jen Webb, 2004-10-13 In a world preoccupied with the visual it has become essential to understand the dynamics of images and interpret them This volume shows the reader how to analyse the structure conventions contexts and uses of the visual in Western cultures Routledge Handbook of Art, Science, and Technology Studies Hannah Rogers, Megan Halpern, Dehlia Hannah, Kathryn de Ridder-Vignone, 2021-12-22 Art and science work is experiencing a dramatic rise coincident with burgeoning Science and Technology Studies STS interest in this area Science has played the role of muse for the arts inspiring imaginative reconfigurations of scientific themes and exploring their cultural resonance Conversely the arts are often deployed in the service of science communication illustration and popularization STS scholars have sought to resist the instrumentalization of the arts by the sciences emphasizing studies of theories and practices across disciplines and the distinctive and complementary contributions of each The manifestation of this commonality of creative and epistemic practices is the emergence of Art Science and Technology Studies ASTS as the interdisciplinary exploration of art science This handbook defines the modes practices crucial literature and research interests of this emerging field It explores the questions methodologies and theoretical implications of scholarship and practice that arise at the intersection of art and STS Further ASTS demonstrates how the arts are intervening in STS Drawing on methods and concepts derived from STS and allied fields including visual studies performance studies design studies science communication and aesthetics and the knowledge of practicing artists and curators ASTS is predicated on the capacity to see both art and science as constructions of human knowledge making Accordingly it posits a new analytical vernacular enabling new ways of seeing understanding and thinking critically about the world This handbook provides scholars and practitioners already familiar with the themes and tensions of art science with a means of connecting across disciplines It proposes organizing principles for thinking about art science across the sciences social sciences humanities and arts Encounters with art and science become meaningful in relation to practices and materials manifest as perceptual habits background knowledge and cultural norms As the chapters in this handbook demonstrate a variety of STS tools can be brought to bear on art science so that systematic research can be conducted on this unique set of knowledge making practices

Understanding Popular Culture and World Politics in the Digital Age Laura J. Shepherd, Caitlin Hamilton, 2016-05-20 The practices of world politics are now scrutinised in a way that is unprecedented with even those previously or conventionally assumed to be disengaged from international affairs being drawn into world politics by social media Interactive websites allow users to follow election results in real time from the other side of the world and online mapping means that the world out there is now available on your mobile phone *Understanding Popular Culture and World Politics in the Digital Age* engages these themes in contemporary world politics to better understand how digital communication through new media technologies changes our encounters with the world Whether the focus is digital media

social networking or user generated content these sites of political activity and the artefacts they produce have much to tell us about how we engage world politics in the contemporary age This volume represents the starting point of a dialogue about how digital technologies are beginning to impact the research and practice of scholars and practitioners in the field of International Relations with the collection of cutting edge essays dealing specifically with the intertextuality of world politics and digital popular culture This book will be of use to International Relations research academics and critically engaged publics interested in the core themes of global politics subjectivity militarism humanitarianism civil society organisation and governance The book also employs theories and techniques closely associated with other social science disciplines including political theory sociology cultural studies and media studies

Researching Art Markets Elisabetta Lazzaro,Nathalie Moureau,Adriana Turpin,2021-05-25 Researching Art Markets brings together a scholars from several various disciplinary perspectives In doing so this collection offers a unique multi disciplinary contribution that disentangles some of the key aspects and trends in art market practices from the past to nowadays namely art collectors the artist as an entrepreneur and career paths and the formation and development of new markets In understanding the global art market as an ecosystem the book also examines how research and perceptions have evolved over time Within the frameworks of contemporary social economic and political contexts issues such as business practices the roles of market participants and the importance of networks are analysed by scholars of different disciplines With insights from across the humanities and social sciences the book explores how different methods can coexist to create an interdisciplinary international community of knowledge and research on art markets Moreover by providing historical as well as contemporary examples this book explores the continuum and diversity of the art market Overall this book provides a valuable tool for understanding art markets within their wider context The volume is of interest to scholars researching into the cultural and creative industries from a wider perspective
