In the last half century researchers and psychologists have upended a lot of conventional wisdom about the way we learn and how we can get the most out of studying Their discoveries have suggested a number of ways that students can study smarter not harder Unfortunately most of these new methods have not made their way into our public school systems leaving millions of students with devastatingly ineffective study habits The Spire Study System aims to change that Using cutting edge science and advanced information design we have created a study system rather than a study guide Just follow the simple directions in this book and rest easy in the knowledge that you will pass your test We re so confident that Spire will work for you we guarantee that you ll pass your test or we ll give you your money back No more cramming No more wasted studying time No more guessing at answers and hoping for good luck
