friction and source of innovation Sinoglossia opens new possibilities for critical studies of China Chineseness and Chinese cultures Bringing together pathbreaking scholarship from diverse perspectives and highlighting multiplicity and heterogeneity on a range of topics this volume is a vital addition to a range of fields Karen L Thornber Harvard University

Vitality centering and theorizing processes of embodiment mediality and translation this timely and rich volume simultaneously reflective speculative comparative and historically informed convincingly articulates Sinoglossia as a flexible heterogeneous approach to intercultural phenomena tenuously identified as Chinese or Sinophone Brian Bernards University of Southern California
